

BLIZZARDS AND TORNADOES KILL 25

WHO'S BEHIND
MOVEMENT TO
RAISE RENTS?SENATORS SURMISE
THAT SOMEONE IS
EMBARRASSED

BY STERLING F. GREEN

Washington, Jan. 30 (AP)—Senators looked tonight to Maj. Gen. Philip B. Fleming to provide an answer tomorrow to the question, "Who almost raised the nation's rents 10 per cent?"

General Fleming, head of the Office of Temporary Controls, tonight sent word to Senator Tobey (R-N.H.), chairman of the Senate banking committee now taking testimony on rent control, that he would be ready to testify tomorrow afternoon. Fleming is returning from a trip to Iowa.

Tobey, thwarted when administration officials failed to appear today without explanation, had already gone gunning for the answer on his own.

"I'm just wondering who threw the overalls in Mrs. Murphy's chowder," he told reporters. "Somebody did."

His particular quarry was James W. Follin, deputy administrator of OCT and in charge, because of General Fleming's absence, when the OPA unit of OCT last night prepared and almost—but not quite—issued an order increasing rents by 10 per cent.

President Truman killed the order. The White House explained he did not favor a blanket increase now.

Committee Curious

Convinced that neither OCT nor OPA had drafted the order on its own, Tobey tried for nearly an hour last night to locate Follin, but was informed by the latter's office that the OCT administrator was in the White House for a meeting "not on this matter."

The rent order apparently emanated from OCT, into which OPA has been absorbed. OPA alerted reporters to what was coming, but it never came. Instead, White House Press Secretary Ross told reporters Mr. Truman had approved no 10 per cent boost.

Another high government official said privately that the president had killed the order as soon as it reached him, that appears "quite definite there will be no across-the-board increase at this time."

Meanwhile a Senate small business subcommittee recommended the abolition of rent control on new construction, while retaining ceilings on existing homes with adjustments where needed in individual cases.

The subcommittee also urged, among other things:

That the order limiting commercial construction "be continued and rigorously enforced" until there is an assured supply of materials for both housing and non-residential building; and

Up To Landlords

That the government "concentrate its efforts to encourage private capital" to build big-scale

FIGHTER PLANE TO SHOOT FOR NON-STOP RECORD—

Early in February, a U. S. Air Forces P-82, twin-engine fighter plane, will attempt the longest non-stop flight ever tried by a fighter — the 5000 miles from Hickam Field, Honolulu, to La Guardia Field, New York City. Map above shows projected course of the flight. One purpose of the experiment is to test long-distance fighter as protection for AAF's new super-bombers on long missions. The P-82, shown at right, is a "freak" plane, developed during the war by taking two Mustang fighters, cutting off one wing of each and fusing the two one-wing fuselages into a single, twin-engine plane. One pilot sits in cockpit of each fuselage, operating dual controls.

TAX REDUCTIONS
NOT ABANDONEDRepublicans Not Bound
To "Across The Board"
Slash, Says Speaker

Washington, Jan. 30 (AP)—Speaker Martin (R-Mass.) reasserted today the Republican objective of cutting individual income taxes 20 percent but added that the GOP is not committed to an "across the board" slash.

He made the statement at a news conference after a Republican family fight over the method of cutting taxes flared to the verge of fistfuffs in a capitol cafeteria.

Rep. Knutson of Minnesota, advocate of a 20 percent slash for virtually all taxpayers, and Rep. Engel of Michigan, who says that would benefit the rich and be of little help to the small fellow, shouted angrily at each other, but colleagues stepped in before any punches were tossed.

"A 20 percent tax cut is definitely and positively our objective," Martin said. "I think every Republican I know is for a 20 percent tax cut."

"We have a three-way objective: 1. Balance the budget; 2. Make a payment on the national debt; and 3. A 20 percent cut in taxes."

Martin had just emerged from a closed door session with Republican members of the House Ways and Means Committee.

Asked whether his party is committed to the "across the board idea," he replied, "No."

Truman Maps Out
His Travel Program

Washington, Jan. 30 (AP)—President Truman mapped out a travel program today that will take him to Mexico, Texas, and Puerto Rico and cover an inspection of Atlantic fleet maneuvers during the first two weeks in March.

The president will also visit Waco, Tex., to receive an honorary degree from Baylor university where a similar invitation stirred up a fiery Baptist controversy over bourbon and poker in 1945.

Sigler Cancels His
Talk At Petoskey

Lansing, Jan. 30 (AP)—Governor Sigler said today he doubted whether he could attend the Petoskey Winter Carnival Saturday night as promised.

Asserting he had advised the carnival managers to seek another major speaker, Sigler said weather forecasts indicated he would be unable to fly to the event and that he could not attend otherwise.

SEAT VACATED

Ottawa, Jan. 30 (AP)—Prime Minister MacKenzie King today moved in the House of Commons that the seat of Fred Rose, Labor Progressive member convicted of espionage and sentenced to six years imprisonment, be declared vacant. The motion was adopted without discussion.

Communists And Cold
May Delay Removal
Of U.S. Troops In China

Peiping, Jan. 30 (AP)—Violent Communist attacks on the Peiping-Tientsin railway and freezing up of the Tangku and Chinwangtao harbors threatened tonight to delay the withdrawal of American personnel from China.

The Communists, in their most serious assault in weeks, burned stations and tore out rails a score of miles southeast of Peiping on the route to the sea.

The highway presumably remained open but it has been out of the past and is a poor road at best.

American members of the disbanding executive (truce) headquarters in Peiping completed a series of alternative plans for evacuation of nearly 2,000 Americans and dependents there.

Lt. Gen. Alvin C. Gillem, Jr.,

U. S. commissioner, declined to estimate the time necessary for the evacuation, saying "it will depend on the ships and air lifts made available."

Still awaiting explicit orders from Washington following the America decision to abandon China, Gillem said that despite the conflict he anticipated no difficulties in removing either the Americans in Peiping or those attached to 32 field teams scattered over North China and Manchuria.

Headquarters personnel in Peiping includes 581 army officers and men, 78 Wacs, 134 civilian employees and about 1,000 wives and children.

(The number of U. S. Marines to be withdrawn from China is uncertain. Peiping dispatches mention 15,000; Washington estimates are 6,000. Withdrawal would leave the Navy's training school at Tsingtao and the military advisory group in Nanking as the only American forces in the country. The advisory group has not been approved by Congress, so its future is uncertain.)

Chinese government troops set out in an armored train to attempt to clear and restore the railway.

PICARD REOPENS
PORTAL HEARINGTwo Sides Won't Agree
On Time Involved At
Mt. Clemens Plant

Detroit, Jan. 30 (AP)—Federal Judge Frank A. Picard reopened today the controversial Mt. Clemens Pottery Co. case which led to more than \$4,000,000 in portal pay suits by labor against American industry.

His action followed testimony at a day-long hearing at which labor, industry and government offered their latest arguments for and against the portal pay theory outlined in the pottery case by the United States supreme court.

Judge Picard, who tried in vain to get the two sides to agree to a stipulation on the portal time involved in the Mt. Clemens case, said he would reopen the case Friday for additional testimony.

Discussing the duties of his federal district court, in view of the directive from the supreme court, Judge Picard declared:

"I have been told (by the court) that walking time is compensable, that (work) preliminaries are compensable but if they were so small as to be trifling in the light of the realities of the industrial world, then I am to disregard them."

The judge asked counsel for the pottery company and its workers if they would stipulate in the record certain amounts of time for the 13 preliminaries undertaken by the employees before they started working.

In each case, Attorney Edward Lamb, representing the plaintiff employees, objected.

Picard then commented, "I'm glad to get this on the record so all the people who think they know the answers to this lawsuit realize one or two of the problems."

LAWYERS STUDY
DUROCHER CASE

Leo The Lip May Face Contempt Charges In Los Angeles

Los Angeles, Jan. 30 (AP)—Superior Judge George A. Dockweiler today named a committee of lawyers to act as friends of the court in a view to instituting contempt proceedings against Leo (The Lip) Durocher, Brooklyn baseball manager.

Durocher recently issued a statement criticizing Judge Dockweiler for threatening to nullify an interlocutory divorce decree he granted Actress Laraine Day from Airport Executive J. Ray Hendricks. The day after this decree was issued she flew to Juarez, Mexico, obtained a Mexican divorce, and then married Durocher in El Paso, Tex.

The committee includes Joseph Scott, who was Joan Berry's lawyer in the Charlie Chaplin paternity suit; Jerry Giesler, famed criminal lawyer, and Maurice Rose, who has conducted an extensive investigation into the legalities of Mexican divorces.

Members of the lawyers committee said they were appointed to study the case and determine if contempt proceedings should be brought against Durocher and to appear in next Tuesday's hearing in Miss Day's divorce case.

"This is the most insufferable piece of effrontery I have ever encountered," Scott told newsmen.

"This little man, this outlander, who definitely says he intends to flout our law by living with a woman who by the very nature of our law cannot be his wife, has the audacity to attack our courts and a judge whose record and background are so completely free of blemish, and above criticism that his name is a synonym for justice, honesty and integrity in this community."

Miss Day is scheduled to appear in Judge Dockweiler's court next Tuesday to show cause why her California decree should not be revoked.

Airlines In Danger
Of Going Bankrupt,
Says CA President

New York, Jan. 30 (AP)—C. Bratton Moore, president of Capital Airlines, asserted today that virtually the entire airline industry faced a crisis in the next six months and that unless passenger fares were increased a number of bankruptcies might result.

"The public thinks nothing of riding on a bankrupt railroad, but it will not ride on a bankrupt airline," he said. "If any number of lines are forced to go through the winger, the whole industry will be seriously affected."

STATE FERRY
SERVICE TIED
UP BY GALESDRIFTING EXPECTED
TO CONTINUE; MANY
SCHOOLS CLOSED

BY THE ASSOCIATED PRESS

Michigan's most blinding snow, rain and sleet storm in perhaps many years kept most of the state in a tight grip Thursday, cutting sharp inroads on transportation, knocking down power lines and curtailing industrial production.

Weather forecasters added to the gloom of overcast skies by predicting continuance and even strengthening of winter's worst elements over the week-end.

No Letup Near

New snow will add to that already on the ground, which ranges up to 17 inches in some places. Strong winds which lashed many areas throughout the day will not abate, the Detroit weather bureau said, and the mercury will dip below current readings Friday and Saturday.

Three deaths were attributed to the storm. Mrs. Elizabeth Dobbelt, 78, of Warren township, was struck and killed by a motorist in Detroit who said he was blinded by the sleet. Two Detroit men, Frank Clark, 72, and Kopa Moravian, 70, collapsed and died while shoveling snow.

Drifting snow blocked all roads in the lower peninsula north of the Grand Rapids-Bay City-Port Huron line and the state highway commissioner warned motorists to avoid all travel above there. The automobile club warned flatly that "night and early morning driving is not recommended."

Boats In Jam

A 52-mile easterly gale whipped ice against state ferry docks, halting service across the Straits of Mackinac. It also smashed windows and blew down light standards on the docks at St. Ignace.

The train ferry St. Marie was stranded all day in ice jams 500 feet off Mackinac City. It reportedly was carrying 20 passengers in addition to its cargo of automobiles and railroad cars.

The big coast guard icebreaker Mackinaw was sent to its aid about 3 p. m. after an earlier unsuccessful rescue attempt by another train ferry, the Wawatam.

The Wawatam was forced to turn back after it got about 200 feet from the Mackinac City side.

Forty fishing shanties on the Cheboygan River were wrecked by the gales, which piled ice several feet deep.

New Taxes Certain
In Michigan Fiscal
Mixup, Says Sigler

BY JACK I. GREEN

Lansing, Jan. 30 (AP)—Governor Sigler today threw cold water on the theory the state can solve its anticipated \$38,000,000 deficit by curtailing major state services.

Addressing the legislature in a special message, the governor said the state could abolish old age assistance and direct relief grants, close all mental hospitals, prisons and state-supported colleges and still have a deficit.

His remarks were part of an explanation of the reasons for delaying his budget message to per-

mit mayors and schoolmen one week in which to suggest a way out of the deficit resulting from the sales tax diversion and veteran's bonus amendments.

Sigler said it was "inescapable" that the fiscal dilemma "means new taxes and enough new taxes to raise scores of millions of dollars while other millions of dollars are being virtually wasted under the (sales tax diversion) amendment."

The governor made it plain to the legislature that he gave the mayors and schoolmen only a week to offer solutions because the legislature must act quickly if a plan to seek repeal of the diversion amendment is adopted.

Pointing out that he had ordered the elimination of "deadwood" on state payrolls, Sigler said "We must realize that we could eliminate every employee of the state of Michigan and still not balance the budget."

"It must be realized," he said, "that we could stop all old age assistance payments and all relief payments, leaving the recipients to shift for themselves, and still have a deficit of more than \$40,000,000, or we could eliminate all expenditures for mental health, close the hospitals and send the patients back to their homes for care, and still be \$64,000,000 in the red."

BYRD REVISITS
LITTLE AMERICABig Transport Planes
Launched From Ship
600 Miles Away

Little America, Jan. 30 (AP)—Two big transport planes, successfully launched from a carrier deck 600 miles away, skied gently down on a snowdrift of Little America today with Rear Adm. Richard E. Byrd aboard one of them.

The commander of the Navy's Antarctic expedition stepped out of the lead plane and said:

"Well, back home again."

(Original plans were for six planes to make the flight. Blakeslee's first dispatch did not make clear whether only two took off or whether only two had arrived at Little America when he filed his report. Dispatches are subject to delays.)

It was the first successful flight from a carrier of planes of that type.

Rear Adm. Richard H. Cruzen, expedition task force commander, set the time for the take-off.

The weather around the carrier, outside the great icecap, was favorable but a 20 to 25-knot wind here drifted snow from two to four feet high on the airstrip.

The snow strip runs for a mile in a northeasterly direction past the tent town of this base.

The only preparation of its surface was to mark out an area of snow and make it a restricted area, forbidden to expedition personnel. This was to prevent footprints and vehicle track marks.

Black flags flapping in the wind outlined the sides of the strip which is fairly smooth with only a few mounds or depressions.

Fake Sugar Stamps
Bring Prison Terms
And \$10,000 Fines

Detroit, Jan. 30 (AP)—Federal Judge Arthur F. Lederle today imposed maximum sentences on three Chicagoans charged with possessing 65,000 counterfeit sugar ration stamps.

Prison terms of one year and \$10,000 fines each were given Vito Nicastro, 29, Joseph Amabili, 31, and Nunzio Fazio, 23.

Detroit police arrested the trio Dec 5 in a downtown airlines ticket office and turned them over to the FBI.

Judge Lederle questioned the three Monday regarding how many trips they had made between Chicago and Detroit but they refused to testify. He then canceled their \$10,000 bonds and remanded them to jail to "think it over."

Today's sentencing followed another unsuccessful attempt to make them testify.

LAW NOT RESPECTED

Portland, Ore., Jan. 30 (AP)—Tillamook County Sheriff Amable Nelson says Portland doesn't render visiting law enforcement officers proper respect.

While Nelson was in a bus depot here, he told police, a pickpocket filched his badge—and \$90 in currency.

DIXIE TOWNS
ARE WRECKED
BY TWISTERSSNOW AND ICE HALT
TRAFFIC; COLDER
WAVE ON WAY

(By The Associated Press)

Winter's most violent tricks—tornadoes, high winds, blinding snowstorms, sleet and freezing rains—swept over the nation on Thursday, playing havoc with lives, property, communications and transportation.

At least 25 deaths, scores of injuries and property losses in the hundreds of thousands were reported from storm-torn areas.

The day brought an all-time low in cold on the North American continent, with a reading of 78.7 below zero at Snag airport in the Yukon.

Washington Swelters

In freakish contrast, Washington, D. C., residents shed their wraps under a 73-degree temperature, the hottest Jan. 30 in the capital's history. And in Charlotte, N. C., a 75-degree reading broke the January 30 heat records there.

Hardest hit by winter violence were the Montgomery, Ala., north central Arkansas and south central Missouri areas, swept by separate tornadoes, and Vancouver, B. C., where an ocean-borne storm carrying 72-mile-an-hour winds pounded ships and caused waterfront damage which may reach the \$1,000,000 mark.

Heavy snow ranging up to 21 inches in Iowa, impeded transportation and disrupted communications in that state and central Lower Michigan, southern Wisconsin, north and central Illinois, southern Minnesota and Nebraska. A thick sheet of ice glazed highways in northern Indiana and northern Ohio.

Drifts 10 Feet Deep

Iowa's worst general storm since 1943 locked up most of the state under a snow blanket and piled drifts as high as ten feet. Telephone and telegraph communications slowly were being restored to some 85 Iowa towns cut off by a freezing rain which snapped wires and poles.

A 2,000-foot-long snowdrift 8 feet high marooned 45 Farmersburg residents at Elkhader, where they had gone Wednesday night for a basketball tournament.

Meanwhile, a cold air mass moved slowly toward the Midwest from Canada, bringing a forecast of "considerably colder" by Friday night.

Eight persons were dead and more than 70 injured in the wake of tornado winds which swept through three Alabama communities, central Georgia and west Tennessee. Buildings collapsed and homes were flattened as a twister ripped into the outskirts of Montgomery, lifted, and then struck hard at Kent, 30 miles northeast. At least three Negroes were killed at Kent and three others persons died at Bethel, 75 miles southeast of Montgomery. Power and telephone lines were disrupted earlier in two Tennessee counties, where a farmer was

MEAT PACKERS BOOST WAGES

Increase For 100,000 Workers Amounts To \$5,000,000 A Year

Chicago—(AP)—A wage increase of \$5,000,000 annually has been ordered for more than 100,000 workers in the nation's major meat packing plants, the meat packing commission of the Department of Labor said.

Dr. Clark Kerr, chairman of the Commission, said the increases were the result of a two-year study. He termed the study one of the most exhaustive examinations of an industry's wage rate structure yet completed. A similar study is now being made in the steel industry.

A formula for distribution of a \$10,000,000 fund, which has been built up in the past two years, was included in the report to the Commission.

The 10-man meat packing commission was appointed Feb. 19, 1945 by the War Labor Board to adjust wage inequities. Since that time it has been sitting as a board of mediation and arbitration.

Newsprint Prices May Go Sky High; Small Users Hit

Washington, Jan. 30 (AP)—Senator Murray (D-Mont.) predicted today "sky-high" prices for newsprint, with small users being denied a fair share of the short supply unless Congress acts to "break the bottlenecks."

Murray's views were outlined in a report he made public today as retiring chairman of the Senate small business committee. Senator Wherry (R-Nebr.), who succeeds Murray as head of the group, has told reporters an investigation of the newsprint situation will be the committee's first project.

In a statement accompanying the report, Murray said "there is no such thing as an open newsprint market in which small papers may bid for and buy the paper they need."

He said a federal trade commission study of conditions in 1939, made public as part of the committee's report, "shows that the prices of newsprint for part or all of the United States are set at private meetings in Canada, outside the jurisdiction of the anti-trust division (of the justice department) or the federal trade commission."

"Congress must take the lead in cooperating with our northern neighbors to see to it that monopolistic pressure—from Canadian mills or U. S. publishers—is taken off small papers," his statement continued.

Methodists To Sign Pledge During Lent

Chicago, Jan. 30 (AP)—The board of temperance of the Methodist church voted today to set aside the first Sunday in Lent of 1948 as a commitment day on which all Methodists, including more than 8,000,000 in the United States, will be asked to sign pledges of total abstinence from alcoholic beverages.

A report prepared for the board by a fact finding committee headed by D. Stewart Patterson, of Washington, D. C., asked for preparation of textbooks on the "evils of liquor" for use in public schools.

The board in a resolution asserted "the right of the citizen to any political unit to make the illegal alcoholic beverage traffic within the borders of that unit. Where this right is not recognized proper steps should be taken to secure the right."

MAYOR CHANGES JOBS

Greenville, Mich., Jan. 30 (AP)—Former Mayor C. Ferris Petersen, who resigned two weeks ago in his seventh term in office, accepted appointment as city superintendent today, effective Feb. 3. In his \$4,000 a year post he will have charge of all city operations.

DIXIE TOWNS ARE WRECKED BY TWISTERS

(Continued from Page One)

killed and 12 persons injured. Iowa Roads Blocked

At Macon, Ga., tornado winds wrecked the main hangar at the Herbert Smart airport, along with several houses and injured a dozen persons. The storm also struck a nearby area known as Seven Bridges, wrecking several tourist cabins and injuring a dozen persons. The Herbert Smart airport is about five miles south of Macon near Camp Wheeler, wartime infantry training center.

At least seven persons were killed and scores injured Wednesday night when tornado winds cut through several communities in North Central Arkansas and Southern Missouri. Estimates of damage to buildings, communications and homes ran into several thousand dollars.

A storm which stirred up dust in the Texas panhandle Wednesday caused brown snow to fall in Chicago and brown rain in Cincinnati.

In Indiana, high winds demolished a hangar and two planes at Greenwood, tore off a 200-foot radio tower at Hammond and destroyed a brick home at London. Lightning, which accompanied heavy rains in Central Illinois and Indiana, started fires and damaged property. An ice coating on utility wires and roads reached a thickness of one to two inches in the Fort Wayne, Ind., and Toledo, O. areas.

A blowing 12 inch snow that piled up six foot drifts virtually paralyzed transportation in Southern Wisconsin. All highways in the Milwaukee area were blocked and no trains were running south of Green Bay.

Nearly all highways in Northern Illinois were at least partly blocked, with additional snowfall in prospect. All planes at the Chicago Municipal Airport were grounded.

Weather forecasters attributed the freakishness of the elements to a collision of warm and cold air masses. Many communities experienced thunder, lightning, rain, sleet and snow within a short period.

The center of the midwest storm causing the heavy snowfall passed over Chicago at midday Thursday and was expected to pass over Lower Michigan and move up into Canada over Lake Huron.

Wave Takes Student

Besides the tornado victims, a Northwestern University student at Evanston, Ill., was swept into Lake Michigan and drowned when engulfed by a high wave. In Wisconsin, three accidental deaths were attributed directly to the heavy snow storm. A chimney toppled by a 50 mile an hour wind killed a night watchman in Dayton, O.

A train wreck in Alta Vista, Iowa, in blinding snow took two lives, another Iowa resident died of exposure, and an Iowa man died in Illinois of carbon monoxide poisoning when his car stalled.

Traffic in Milwaukee was completely tied up by a 17-inch snowfall, the city's worst since a 20.3 inch fall in 1924. Streets were blocked, and thousands of vehicles abandoned. All trains to and from the city were cancelled, deliveries cut off, schools and department stores closed and many major industries shut down. A 60-mile-an-hour wind added to the discomfort, and the storm was expected to continue for at least another 12 hours.

A number of deaths were attributed indirectly to the storm. Two elderly men died in Detroit while shoveling snow. Three similar deaths were reported in Milwaukee and two in Illinois.

Illinois, Indiana and Ohio reported unusual weather extremes. Temperatures were freezing or below in the northern parts of these states but in the southern sections the mercury was in the sixties or higher.

Best Friend Slain By State Trooper In Munster, Indiana

Hammond, Ind., Jan. 30 (AP)—State police reported tonight that Charles Wilmer Chapman, 29, chief of police at the Hammond suburb of Munster, was accidentally shot and killed by State Trooper Steve Ranich of the Dunes Park post, reportedly a close friend of Chapman.

Lt. Rex Risher, in charge of the Dunes Park post, who went to Munster after Ranich telephoned word of the accident, said Ranich's gun apparently was discharged accidentally as he removed it from its holster after asking Chapman for a cleaning rod. The accident occurred in Chapman's office at Munster.

Sgt. J. E. Stack of the Dunes Park post said Ranich marked out of radio communication at 8:30 p. m., saying he would be at Munster police headquarters. Ten minutes later, Stack said, Ranich telephoned the Dunes Park post in an almost hysterical state, saying he had shot Chapman and asking Lt. Risher to come at once.

Lt. Risher said the bullet struck Chapman just below the heart and he apparently died almost instantly. He was dead on arrival at St. Margaret's hospital in Hammond.

Members of the Munster town board, which was meeting in a room next to Chapman's office, reported that after the shot was fired they heard Chapman say, "I'm shot." Then, board members said, Ranich said, "I've shot my best pal."

The shooting victim had been Munster police chief for approximately 10 months. Ranich had joined the state police force in 1941 but had served in the army intelligence branch during the war, returning after his discharge. His home is in East Chicago.

Jerusalem's Tombs Combed For Jewish Kidnaping Suspects

Jerusalem, Jan. 30 (AP)—British soldiers and police rounded up several hundred Jews in hastily erected screening pens in the Montefiore quarter of Jerusalem and combed through ancient Jewish tombs today in a relentless hunt for kidnapers who seized two English hostages, then set them free.

All the Jews were soon released. The British rescinded an order for clamping martial law on three Jewish cities, Tel Aviv, Petah Tikvah and Ramat Gan, however, and tension eased somewhat throughout the Holy Land.

H. A. I. Collins, banker and retired army major, who was seized on Sunday, was released late last night. He spent 78 hours in a yet unlocated iron-barred cave where a doctor "stitched" his head wounds. A government hospital report said he was recovering from his ordeal. Previously the abductors released Judge Ralph Windham, who was taken from his court room on Monday.

Authorities attributed both kidnapings to Irgun Zvai Leumi, Jewish underground group, which held the two men as hostages for the death sentence on Dov Beza Gruner, alleged Irgun member. Gruner's execution for his part in an attack on a police station was stayed, pending an appeal to a higher court.

Proposed Director Of TVA Considered Communism Lover

Washington, Jan. 30 (AP)—Two witnesses told a Senate committee today that Gordon R. Clapp, nominated to be a director of the Tennessee Valley Authority, was considered by many TVA workers to be a Communist sympathizer.

Closely questioned by senators on the public works committee, the witness said, however, they had no proof that Clapp had Communist sympathies, only allegations.

The nominee has several times denied to the committee that he is a Communist and, in reply to a question by Senator McKellar (D-Tenn.), said he had no sympathy with tactics of the Communist party.

Robert B. Barker, a former investigator for the House un-American activities committee (formerly the Dies committee), and James L. Smith, a former TVA employee, testified on alleged Communism in the TVA from 1933 to 1940.

Portal Pay Claims Are Confiscation, Steel Mogul Says

New York, Jan. 30 (AP)—E. G. Grace, chairman of Bethlehem Steel Corp., said today that if labor obtains its portal pay claims, the unions "won't talk about getting 'substantial' wage increases; they'll talk about getting any pay at all."

Portal pay suits against Bethlehem aggregated about \$400,000,000 he said, adding that "We have just about enough property to satisfy them." If labor gets that, he commented, "they'd have to provide the payrolls afterwards."

Grace made his statements at a news conference where he disclosed Bethlehem's net income for the final 1946 quarter was \$11,937,281, equal to \$3.45 a common share, compared with \$11,447,858 or \$3.29 a share in the similar 1945 period. Net income for the year totaled \$41,731,931 or \$11.79 a share against \$34,947,116 or \$9.52 a share in 1945.

British Building Large Air Liner

London—New 100-passenger, gas-turbine flying-boat, under construction in the Isle of Wight, is designed for world-wide ocean routes and will be powerful enough successfully to buck the headwinds on the London-New York transatlantic flight.

The plane will be known as the Saunders-Roe SR-45. It is a 120-ton craft with two decks, and is powered by six 5,000-horsepower gas-turbine engines, driving contra-rotating propellers. It has a normal range of 5,000 miles, and a speed of 300 miles of the giant boat are of a patented design with provisions for complete retraction into the wing section. An automatic mooring device includes a pick-up hook on the keel below the water-line, and a mooring cable running from a dock to an outer buoy, the cable being wound in or out by a winch on the dock.

LICENSE JAM FEARED

Lansing, Jan. 30 (AP)—Warning that only 350,000 Michigan motorists have obtained 1947 license plates, Secretary of State Fred M. Alger Jr., asserted the other 1,500,000 face a "serious jam" if they wait until the end of February to obtain licenses.

TYPHOON IN PACIFIC

Manila, Friday, Jan. 31 (AP)—The weather bureau reported today a typhoon was heading toward the Philippines from a point 150 miles east of northern Mindanao, in the southern part of the Archipelago.

WHO'S BEHIND MOVEMENT TO RAISE RENTS?

(Continued from Page One)

housing projects.

In another housing sector, the CIO launched an attack on Senator Taft (R-Ohio) for his failure to date to introduce long-range housing legislation on the order of the Wagner-Elender-Taft bill—a piece of unfinished business left over from the 79th Congress.

When it gets around to it, the banking committee is likely to question other government men about the still-born OPA order calling for a 10 per cent rent increase. These include Ivan D. Carson, OPA rent chief, and—if he returns from an out-of-town trip in time—Maj. Gen. Philip B. Fleming, administrator of OTC, who was away when the uproar started.

Landlords are to be heard tomorrow.

The banking committee got its hearing under way with the declaration by Senator Tobey that it will place "squarely upon the landlord" the burden of proof that a rent increase should be granted.

Decline In Living Costs Predicted For Last Of 1947

New York, Jan. 30 (AP)—Eleven of the nation's top economists unanimously predicted a decline in the cost of living in the closing half of 1947, in an appraisal made at the latest meeting of the National Industrial Conference Board Economic Forum and released today.

The average of their predictions placed the closing consumers price index at 140 after indicating an opening of 148. The index figure is based on 1935-39 as 100.

More than a third of the group placed the industrial production index for 1947 at 170 to 180. This compared with an average for the first 11 months of 1946 of 170.

All but two expected a reduction in gross national product.

CHAIRMAN TO QUIT

Lansing, Jan. 30 (AP)—William J. McCrearty today announced he would not seek reappointment as chairman of the state public service commission when his term expires Feb. 15.

In a letter to Governor Sigler he said he was resigning to enter the private practice of law in his native Detroit.

Refugees Held Up

Le Havre, Jan. 30 (AP)—Port authorities here impounded an 800-ton Honduran vessel bearing 600 Jewish refugees bound for Palestine today and refused to permit it to continue its voyage.

The vessel, the Ulna, arrived here a few days ago from Sweden to refuel before continuing through the Mediterranean.

School Officials To Marquette Saturday

Public school superintendents and members of boards of education of Escanaba and Delta county will attend the annual winter conference of the Upper Peninsula Association of School Boards and Superintendents to be held at Northern State Teachers College at Marquette on Saturday, Feb. 1.

"Better Teaching in Upper Peninsula Schools" is the theme of the conference.

J. A. Lemmer, superintendent of Escanaba's public schools, will conduct a discussion of salaries of school employees; R. Paul Bowers, Rapid River, upon education after high school.

Wallace Cameron, Gladstone, and J. F. Wells, Hermansville, serve on the resolutions committee. Jack Malette, Pickford; Claude M. Elmore, Trenary; G. E. Weingartner, Rock, are on the nominating committee. Joseph LaFramboise, Gladstone, is on the board of directors.

en feet high. A large quantity of fishing tackle also was lost.

Bay City was virtually snow-bound by a 17-inch fall between midnight Tuesday and 9:30 a. m. Thursday. All schools and grocery stores were closed. City bus service was halted and police warned drivers to stay off the streets.

Travel Hazardous

Also bearing a large share of the brunt was Muskegon. No mail deliveries were being made and the fire department said it would be unable to answer alarms because of clogged streets. Even the weather man there was isolated.

Palmer Hansen, in charge of the bureau, was forced to remain in his station but kept in touch with the city by telephone.

The storm left 30 persons stranded after a party at the Muskegon Yacht club and 75 motorists took refuge in a farmhouse on US-31 between Muskegon and Grand Haven.

All highways in lower Michigan remaining open were reported hazardous and only one-way traffic was possible on many. Drifting snow piled up to 15-foot drifts in Ionia and other counties, hampering efforts of state, county and municipal highway crews.

Most of the Upper Peninsula reported near-normal winter weather, including icy pavements in Alcona county and other areas.

Power Lines Down

Widespread damage occurred in Hillsdale, Lenawee and Monroe counties, where the Consumers Power company said many customers were cut off from service.

Stability Reported On Spanish Border; Troops Recalled

Madrid, Jan. 30 (AP)—A spokesman for the foreign ministry said today that Spanish troop contingents on the Franco-Spanish border had been reduced to the normal number because of the stability which had existed in the area for some time.

He did not reveal the number of troops withdrawn from the border and refused to comment on a report that the retirement of the troops was a move to influence France to reopen the border.

FARMER MEETS TRAIN

Belding, Mich., Jan. 30 (AP)—J. T. Halley, Orleans farmer who drove his car head-on into a Pere Marquette train, paid a \$60.35 fine for drunk driving today. He escaped with cuts and bruises in the crash. Police Chief Ben Neve said Halley had driven his car several blocks on the tracks.

Briefly Told

Pleads Guilty—Arthur Sivertsen, 1925 Eighth avenue, pleaded guilty in Justice Ranguette's court yesterday when charged with furnishing liquor to minors and was assessed a fine of \$25 and costs.

Army Enlistees Can Get G. I. Schooling

High school graduates can still qualify for educational benefits under the GI Bill of Rights by enlisting in the Regular Army, Captain Walter T. Meyers, commanding the Upper Peninsula recruiting district, announced yesterday.

There is only one requirement, Capt. Meyers pointed out. GIs must serve at least 90 days, one day of which must occur before the official end of World War II is declared, to become eligible for free schooling. After his first three months of service, a recruit is entitled to a year of education in any college, trade, or business school of his choice.

In addition, each month of active Army duty—including the first three prior to the official end of the war entitles a GI to an additional month of education, up to a total of 48 months. The government will pay all tuition, laboratory fees and other necessary expenses. Uncle Sam will also provide students with living allowances of \$65 a month. Those with dependents will receive \$90.

AIRPORT ACTION EXPECTED SOON

Recommendation On Site
And Visit Of Airline
Officials Awaited

Officials of the city of Escanaba and the airport committee of the Chamber of Commerce, anxious to begin scheduling airport improvements for 1947, are awaiting recommendations from federal and state airport engineers, and a projected visit of Wisconsin Central Airline officials.

City Manager A. V. Aronson yesterday said that he was writing G. R. Richardson, Lansing, chief engineer for the state board of aeronautics, to report additional information requested. The city seeks to have the state and federal airport agencies recommend which of two airport sites the city should begin development in 1947.

Seek Recommendation
These sites are the present airport, and a proposed new airport site in North Escanaba on property the city recently purchased from the federal government. Aronson said that certain unforeseen difficulties have been discovered with development of the second site.

Walter Arntzen of the Chamber of Commerce airport committee has written officials of the Wisconsin Central Airlines asking when they expected to be in Escanaba to discuss plans for their projected service into the Upper Peninsula. The airline was given a franchise by the CAA late in December.

Airline representatives have made preliminary surveys of the airports at Menominee and Ironwood. They are expected to visit Escanaba, Marquette, Iron Mountain and Houghton soon. Service is not expected to be established until late summer, according to Herbert Foth, Wisconsin Central vice-president.

Daily Flights
Under the CAA-approved plan, Wisconsin Central must operate two round-trip flights daily over its Peninsula route and maintain connections with main airlines at Milwaukee, Chicago and Minneapolis. The company's planes, either the DC-3's or 10-passenger Beechcrafts, probably also will carry air mail, cargo and express.

Foth told Menominee and Ironwood officials an inspection of airfields on the U. P. route would be made within the next few weeks by CAA officials and that Wisconsin Central was hopeful enough of them would be approved to permit inauguration of the service. One of the company's other routes—from Milwaukee to Duluth—will begin service on May 3.

Foth also stated his company hoped to make arrangements with field operators at each airport for handling charter flights and mail and express deliveries to communities which are not on the regular flight.

A STUDY OF GLASS—Fifth graders of the Jefferson school recently completed a project for the study of the manufacture of glass and its various projects. The program was conducted for a few weeks, and children cooperated by

bringing various pieces of glassware for a school exhibit. Parents of the students were invited to the school this week to attend a special program devoted to this subject.

READY TO PAY BUT NO TAKERS

Social Security Board
Seeks Claimants Under
New Amendment

The survivors of the service man who died in battle, in service, are aware usually of what is coming to them under the terms of the Government's insurance policy.

But here in Escanaba and its immediate vicinity there are many who are entitled to social security insurance from the death of a veteran even three years after his discharge. Carl L. Johnson, manager of the Escanaba office of the social security board stated yesterday.

On August 10, 1946, an amendment to the Social Security Act was enacted which provides social security benefits to the survivors of veterans who died within three years of their discharge from the service, and who meet certain minimum requirements.

The requirements are: 1. The veteran must have been discharged under conditions other than dishonorable; 2. He must have served on or after Sept. 16, 1940 and before the end of the war; 3. He must have active service of 90 days or more, or if the service is less than 90 days, been discharged as a result of a disability or injury incurred or aggravated in service in line of duty.

Health Committee Bottles 745 Pints Of Cod Liver Oil

Mrs. Leonard Winling of Pine Ridge, chairman of a special Delta county lay health committee, on

gravated in service in line of duty. These benefits are not payable, Mr. Johnson said, if the veteran died in service, nor if the Veterans' Administration says that pension or compensation is payable because of his death.

Benefits are payable, however, in respect to those veterans who died before its enactment, if claim is filed before Feb. 10, 1947. "We are most anxious," Mr. Johnson said, "to get in touch with those people who are entitled to benefits under this amendment. We know that there are a lot of them around Escanaba. And we're particularly anxious to get in touch with those whose claims are based upon deaths occurring before August 10, 1946. Remember, that deadline is Feb. 10."

Wednesday with her committee completed the bottling of 745 pints of cod liver oil which will be distributed in the county under the supervision of the county health department.

The committee is composed of Mrs. Winling, Mrs. Charles Sedenquist, Mrs. Fred Weissert and Mrs. Robert Rouse.

Working under the supervision of the county health department sanitarian, the committee finished the bottling of the oil in one day. The cod liver oil goes to children in school and to pre-school age children who need it to supplement their diet. Persons who have not applied for a supply of the cod liver oil may do so through the county health department.

Obituary

FRANK SMITH

Final rites for Frank Smith were held at 2 o'clock Thursday afternoon at the Anderson funeral home chapel, Rev. James G. Ward, rector of St. Stephen's Episcopal church, conducting the service. Mrs. A. J. Olson, who was soloist, sang "Have Thine Own Way, Lord," and "Saviour, Like a Shepherd Lead Us." Mrs. John Anderson was accompanist.

Burial was in Lakeview cemetery. The pallbearers were Archie Wood, John DeChantel, Adolore Lambert, Sam Smith, Julius Papineau and Harvey Wellman.

Miss Annabelle Reilly of St. Louis, Mo., and Mr. and Mrs. Theodore Black of Rapid River were among those at the funeral.

JAMES ASHLAND

Funeral services for James Ashland were held Thursday morning at 9 o'clock at St. Joseph's church, Rev. Fr. Francis, O. F. M., officiating at the funeral mass. Burial was in St. Joseph's cemetery.

The music of the mass was sung by the church choir. At the offertory Mrs. John Cass sang "Domine Jesu Christe," and as the body was being taken from the church, she sang "O Meritum Passionis."

Members of the Barbers Union formed an honorary escort and served as active pallbearers. The escort included Ralph Pratt, Jack Pratt, Zephyr LaBumard, Joseph Bellard, Fred Martell and Harry Hebert. The pallbearers were Oliver Grolean, Ed Jerntstrom, Sam Cahoe, George Walker, Floyd Duchaine and Joseph Richards.

Those from out of town at the funeral included Mr. and Mrs. Joseph Ashland, Detroit; Mr. and Mrs. James Ashland, Jr., Chicago; Miss Pearl Ashland and Miss Lucy Ashland, Lapeer, Mich.; Mrs. C. Campbell, Sault Ste. Marie; Max

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day. If the 16 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start nagging backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 55 years. Doan's gives happy relief and will help the 16 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

SUBSCRIPTION RATES
Upper Peninsula, by mail: 75c per month, \$2.00 per month, \$3.50 six months, \$7.00 per year.
Outside Upper Peninsula: one month \$1.00, six months \$5.00, one year \$10.00. By carrier: 25c per week, \$6.50 six months, \$13.00 per year.

Rent Control

THE rent control program in the Upper Peninsula counties which were placed under federal regulation last November is not going too smoothly. Not only has there been a considerable number of overcharges, but there also are many landlords who have not even registered under the act. The exact number in Delta county has not yet been determined but it probably is in excess of 10 per cent of the total required to register.

Failure to register is, of course, a serious offense under the act, punishable by a prison term of one year or \$10,000 fine. The area rent control office has indicated that it is preparing to take a number of these cases to court to force compliance with the rent control act.

Rent control in the Upper Peninsula did not exist during the war years, except for a time in Chippewa county. The program was put into effect in six of the 15 counties last Nov. 1, but not in the other nine counties of the peninsula.

Delta county landlords, on the whole, made no unreasonable demands upon their tenants during the war years in which there was no federal control. Instituting the program here now for the early post-war period was a mistake that can do considerable harm to the county's housing program. Few persons are interested in building rental homes under the rent control program.

The biggest problem confronting communities today is housing and anything that stands in the way of a quick solution of that problem is harmful. For that reason, rent control is harmful to the counties in the Upper Peninsula where it is now in effect.

Unfortunately, however, the program is in effect and landlords have no choice except to comply with the regulations.

Tax On Cigarettes

THE cigarette smokers of Michigan will find their habit more expensive if a bill proposed in the state legislature by Rep. Louis E. Anderson of Northport is adopted by the lawmakers. The measure provides for a two-cent tax on each package of cigarettes, and its sponsor estimates it would raise \$17,000,000 annually.

A tax of this kind is discriminatory, of course, but it is levied apparently under the theory that smoking is either a luxury or a filthy habit. The smoker already pays a sizable federal tax. The state also collects its three per cent sales tax. He cannot be blamed if he complains that he is paying enough.

The cigarette tax bill likely will be only one of many measures that will be introduced in the state legislature in an attempt to solve the financial riddle, created when Michigan voters adopted the bonus and sales tax diversion proposals at the last election.

The people were told over and over again that the proposals, if adopted, would impose no new taxes. But Gov. Kim Sigler, upon stepping into the executive office at Lansing, found himself faced with the toughest financial problem that has faced the state since the adoption of the 15-mill tax limitation amendment.

City officials of Grand Rapids, Detroit and other municipalities, who were comparatively quiet during the pre-election weeks while they allowed the educational interests to campaign vigorously for the sales tax diversion amendment, are now clamoring loudly for their share of the money. Gov. Sigler has washed his hands of the matter for a week or so, asking that the mayors and schoolmen work out their own solution of the tax dilemma in the meantime. After it is all threshed out, the taxpayers of Michigan are certain to find that they must pay more taxes.

He Gave Us Light

IT IS a good thing to remember that the wonderful electric development which the United States has enjoyed, and where electricity is in more universal use than any place in the world, was brought about by the courage and initiative of individuals.

In recognition of one man who did more to provide electric service for the world than any other, the Thomas A. Edison Centennial will be celebrated throughout the country February 11, by electric power companies, professional societies, electric leagues, and other business, civic, and educational organizations.

It is no exaggeration to say that Thomas Edison made possible more appliances to lighten work and provide amusement than any other individual. After Edison conceived an invention, industry pioneered the way in making its use practical and economical for the average citizen. It would be impossible to estimate the benefits flowing to mankind as a result of Edison's imagination. The ramifications of the use of electricity after his perfection of the incandescent lamp in 1879 are too varied to enumerate.

The Edison Centennial is a fitting tribute to the man who made electric service for the world possible. By the same tok-

en, it reflects credit on the individuals and companies who provide electric service at a cost within the reach of every pocket-book.

The record of Edison's achievements is a testimonial of what the United States stands for—opportunity—no limit on the exercise of talent and initiative.

When you turn an electric switch on February 11, play your phonograph, see a motion picture, or enjoy any one of the countless uses of electricity, pause a moment and think of Thomas Edison, a typical American who made these things possible.

JUDGE CONTEST (Iron River Reporter)

Other than through the newspapers, few voters will have an opportunity to meet up with the five candidates for circuit court judge who aspire to succeed Judge Frank A. Bell when he retires December 31.

The primary on February 17 which will select the two highest for a final decision April 7 is the first in the history of the twenty-fifth judicial circuit. All other judges were appointed to fill a vacancy or elected without opposition.

Thus the judicial primary is a new experience to the voter and to the legal fraternity as well.

Iron county has been visited by all five candidates and they will return frequently before the primary date. In their own communities they are in the forefront of their profession, each with a background of long, competent legal and official services. Iron is the only county in the circuit without a candidate of its own, and if the candidates appear to cultivate us more assiduously, it is because they seek strong support here to add to the majorities they rightfully anticipate in their own counties.

The dean of the candidates is Glenn W. Jackson, of Gladstone, a venerable gentleman of recognized legal ability. Grey-haired Mr. Jackson is affable, easy to meet, and admittedly perplexed over the intricacies of a political campaign which has been underwritten and directed for him by the Delta county bar. At the onset of the campaign, Mr. Jackson proposed a review of qualified candidates by the various county bars and the selection of an endorsed candidate from the nominees. This, he felt, would have the merit of selecting the best material and virtually eliminating an open contest. The plan fell through and when the race became a free-for-all, Mr. Jackson yielded to the insistence of his county bar and became a candidate.

Best known to Iron county is Ray Derham, Iron Mountain, who served in two world wars and has appeared frequently in Iron county courts for Iron county clients. Mr. Derham is reserved in approach, somewhat stern in appearance, judicial in demeanor, and in the court room is known as a formidable legal opponent. His activity in organizations and civic affairs has broadened his acquaintance.

Mr. Rushton and Mr. Quinnell, of Marquette and Mr. Doyle of Menominee, are the remaining candidates and a first meeting gives the impression they are all amiable men whose pleasantness quickly turn to serious mien on subjects of judicial concern.

Mr. Rushton is a widely known judge of probate in Marquette county, particularly distinguished for his work and interest in juvenile guidance. His father is a Delta county attorney and a former attorney general of Michigan.

Mr. Quinnell is a federal referee in bankruptcy for the upper peninsula and a practicing attorney of long standing.

Mr. Doyle, one of several brothers in the legal profession, and a son of the late Atty. Michael Doyle, has won endorsement of the Iron county bar for the judgeship. His experience includes several terms as prosecuting attorney, in addition to wide court practice.

The candidates have the similar qualifications of being graduates of the University of Michigan law school and long residents of the judicial district. On most things they agree. They urge voters to take part in the primary so the nominees may be the choice of a cross section of the electorate. They are submitting their qualifications through the press, and by radio and mail for the study of the voters.

The verdict of the voters must stand for six years and the tenure may be much longer if the district follows in the tradition of the past and returns its judge to office for subsequent terms. Hence the selection should be approached with deliberation.

A Chicago detective retired after fifty years to become a farmer. He should enjoy searching around the barnyard for fresh eggs.

Nobody minds a person with a mind that minds its own business.

Numerous writers dwell in attics because they can't live on first stories.

Take My Word For It

Frank Colby

WHAT'S THE ORIGIN (Scrapbook Item)

Q. Why do we say that something is "spick and span"?

A. It's short for spick and span-new, "so new as to be neat and clean as a new chip."

The expression entered English from the Old Norse spik, "a piece split off, a spike," and span-nyr, "a new chip," hence, as new, clean, and bright as a new nail and a new chip (of wood).

It is also interesting to know that from the Old Norse span we have the English word spoon, for ancient days new, clean chips or splinters were used as spoons.

Q. When we drink to a person's health, why do we call it a "toast"?

A. In medieval days, it was the custom to place a piece of toast in a glass or cup of liquor. When the liquor was drunk, the

World Events Analyzed

BY PETER EDSON

Washington, (NEA)—Half a dozen legislative red-tape obstacles will have to be overcome before Congress can even consider federal aid for education. After that, there will be several beautiful fights over terms under which aid is to be given.

President Truman in his budget message pointed out he had long been in favor of federal aid to the states for education. The President failed, however, to make any request for increased appropriations to aid the schools.

As a matter of fact, the Senate Committee on Education and Labor has in its files a letter from the Bureau of the Budget, requesting that the Congress make no plans for increasing aid to education until the universal military training program can be worked out.

That letter is highly significant. What it amounts to is a White House stop order on further aid to education for the time being, though Congress need not be bound by this request.

Secretary of War Patterson has estimated that the military training will cost about \$1 billion a year—\$1000 apiece for a million trainees.

Two million veterans are this year receiving education and training benefits. This cost is \$2 billion a year. The amount will increase next year, then decrease over the next five years. That may or may not make room for later non-military schooling.

Educators—who have been trying to get federal aid for 60 years—argue that if the nation can afford to spend \$3 billion a year to educate future- and ex-soldiers, it can afford to spend half that amount to educate people for peace.

—MANY A SLIP . . .

But whether Congress can find a place for federal aid to education next year is dependent on two further actions. First is action by the Joint Committee on Economic Report, chaired by Sen. Robert A. Taft of Ohio. By Feb. 1 it must make recommendations to Congress for or against financial aid to schools.

These recommendations will then be considered by the Joint Committee on Legislative Budget. This group of 102 senators and congressmen is made up of members of taxation and appropriation committees of the two Houses. By Feb. 15 they must set a ceiling on government expenditures for next year. If they decide there is no money for school aid, the project is as good as dead for next year.

When all this red tape has been unwound, there will still remain for debate by Congress what kind of aid is to be given.

Any federal aid will be called a subsidy. Subsidies for roads, postoffices, dams, bridges, flood control and harbor improvement are well established. Congressmen roll logs and pork barrels all over Capitol Hill to get them. But in some quarters, the idea of federal aid for education is considered wicked.

Then comes the question of whether aid is to be given all the states, equally, or just to the poorer ones. Senator Taft's own bill—which will be backed by the National Education Association of teachers—is expected to offer aid to poorer states only. For instance, Nevada, with high per-capita wealth but few children, would get little money. On the other hand, South Carolina, which, as ex-Sen. Josh Lee used to say, "has the kids but not the cash," would get plenty.

Prosperous states like New York oppose this idea of having their taxpayers support schools in less prosperous states. This is the same argument that was heard in depression days, when states that paid the least taxes got the biggest per-capita grants for WPA.

The race issue gets dragged into the debate by both those who think all races should be admitted to the same schools or at least have the same educational opportunities, and those who think there should be segregation and different standards.

The religious issue gets dragged in on the question of whether federal aid should be given to private and parochial schools. Supporters of the private schools say they get taxed to support the public schools, so their private schools should not be penalized or made inferior by failing to receive some part of grants to public schools.

If the principle of federal aid for schools gets over the hurdle of budget approval, prospects for getting some kind of an educational grant bill through the Senate would seem to be fairly good. In the House the story is different.

There the Committee on Education and Labor is fairly well agreed that there should be considerable revision of the labor laws, but there is wide disagreement on the subject of federal grants-in-aid for education or anything else new. The House will probably pass no aid to education bill of its own accord. "If and when a Senate bill gets passed to the House, there will be a fight."

sop of toast was eaten as a delicacy.

The late W. W. Skeat, etymologist and Professor of Anglo-Saxon at the University of Cambridge, traces the term "to drink a toast" to a story which appeared in the London Tatler, No. 24, June 4, 1709.

Once during the reign of Charles II (1660-1685), a young woman, celebrated for her beauty of form and face, was bathing in the Cross Bath. One of her gallant suitors dipped a goblet into the water and drank her health before the fashionable assembly.

Another of her admirers remarked wittily, "I care not much for the liquor; but faith would I enjoy the toast!"

Q. Is there such an animal as "camelopard"?

A. The name is from the Greek camelopardalis, meaning literally, "camel-leopard," hence, the giraffe, from its camel-like build, and its leopard-like spots. Years ago the giraffe was quite commonly called camelopard, pronounced: kuh-MELL-o-pahrd. Incidentally, pard is an archaic word for tiger, panther. The leopard got its name from leo, "lion," plus pard, "panther."

Seems to Be an Acute Labor Shortage

Good Morning!

By The Bugler

SOMETHING NEW—Commercial fishermen of Escanaba, Manistique, Menominee and other Great Lakes ports are wondering whether the federal-state program to control the fish-killing lamprey eel may not be too late. Ice fishermen this winter report an apparent increase in the number of perch, suckers, trout and whitefish with "lamprey marks," indicating the number of adult lamprey in these waters is greater than ever before.

At a recent meeting of Michigan commercial fishermen in Traverse City information was presented which left many of the fishermen stunned. It was reported at the meeting that the history of the lamprey in the Great Lakes may follow that of the lamprey in Lakes George and Champlain—where the lamprey disappeared only after it had killed every bit of fish life in those lakes. Because the lamprey feeds on the lifeblood of the fish, the lamprey then starved to death and the fish later returned.

SPREADING FAST—The lamprey eel comes from the ocean, became acclimated to fresh water in the St. Lawrence river and in Lake Ontario below Niagara falls. Then man-made canals around the falls permitted the lamprey to enter Lake Erie—and from there it was spread to the other Great Lakes. In 1921 they were discovered in Lake Erie; in 1930 they reached Lake Huron; in 1936 they were reported in Lake Michigan—and last summer they were discovered in the Sault rapids making their way into Lake Superior. Fishermen say it is a parasite that threatens the extinction of fish life in the great inland seas.

SPORTSMEN CONCERNED—At first the problem of what to do about the lamprey was left to the commercial fishermen of the Great Lakes. Now the sports fishermen are becoming concerned, for they realize that once the lamprey becomes firmly established every form of game fishing in the Great Lakes and their tributary streams is threatened with depletion and possible extinction. Brook trout fishermen whipping the Fox, the Days, the upper reaches of the Whitefish and other trout streams report catching an occasional fish with lamprey marks on its side. Walleyes and muskies, Northern pike and lake trout also are threatened—particularly the lake trout whose thin scales make it vulnerable to the attacks of the lamprey.

MAN ALSO ATTACKED—Although not dangerous, the sea lamprey will also attack man. Authorities have cited instances where the lamprey fastened itself to swimmers in the vicinity of Toronto, and in marathon races in Lake Ontario the swimmers cross the finish line with several of the eel-like lamprey in tow.

TEN-YEAR PROGRAM—Starting this year the U. S. Fish and Wildlife Service is undertaking a 10-year program to rid the Great Lakes of the parasitic eel. Congress has authorized the expenditure of \$20,000 a year for the program, and cooperating states are expected to contribute a like amount annually.

Dr. John Van Oosten, Ann Arbor, who is in charge of the Great Lakes fishery investigation for the federal government, is heartened by the prospect of a vigorous research program—although he admits he knows of no control method except trapping the lampreys before they reach their spawning grounds in streams emptying into the Great Lakes.

"It is impossible to estimate the damage lampreys cause," Dr. Van Oosten reports. "But Lake Michigan and Lake Huron fishermen report that from 25 to 85 per cent of lake trout in various catches have lamprey marks."

THE LAMPREY EEL—The sea lamprey, often called "lamper eel" or just plain "lamper" by fishermen, looks like an animated length of rubber hose and grows to a length of more than 30 inches. As its name implies, Petromy-

Good Morning!

By The Bugler

Ten Years Ago—Washington—President Roosevelt was the unseen guest of honor tonight at more than 5,000 parties celebrating his birthday and his fight against infantile paralysis.

Escanaba pastors will devote a portion of their sermons today to the needs of the unfortunate sufferers in the flood-stricken area of the Ohio and Mississippi valleys.

Lots of fun for young and old is promised those who attend the special program, featured by the election of the king of the 1937 Winter Frolic, to be presented at the Ludington park rink this afternoon. The novelty program will begin at 1:30 o'clock.

Gladstone—Miss Helen Patton, pretty 17 year old daughter of Mr. and Mrs. F. S. Patton of 918 Superior avenue, was the choice of six out of town judges here tonight to rule over Gladstone's winter sports carnival.

Twenty Years Ago—Nicaragua—Predictions that the military operations of the United States marines in Nicaragua ultimately will result in their opening fire against the liberal forces was made in a statement given to the Associated Press today by Dr. Juan Sacasa, head of the liberal government which has been set up here.

At a meeting held at the home of Mrs. E. E. Morrell last evening, the choir of St. Stephen's church was completely re-organized. Officers were elected and plans laid for the future that point towards the choir being one of the leading in the city.

The Elson Art exhibit to be held in this city Feb. 9, 10, 11 is to be in the Franklin school building. More than 200 pictures including carbons and photogravure copies from the world's best original masterpieces will be on display.

Escanaba radio fans have a real treat in store for them Wednesday evening when Miss Agnes Casey of Wells will broadcast over the new Cloverland Boosters club station.

fearful that the parasite is now just beginning to appear—and that in a few years they will be so thick there will be little by lampreys in the Great Lakes.

At least it adds another reason for an energetic lamprey control program.

TEN-YEAR PROGRAM—Starting this year the U. S. Fish and Wildlife Service is undertaking a 10-year program to rid the Great Lakes of the parasitic eel. Congress has authorized the expenditure of \$20,000 a year for the program, and cooperating states are expected to contribute a like amount annually.

Dr. John Van Oosten, Ann Arbor, who is in charge of the Great Lakes fishery investigation for the federal government, is heartened by the prospect of a vigorous research program—although he admits he knows of no control method except trapping the lampreys before they reach their spawning grounds in streams emptying into the Great Lakes.

Q&A Service

By WS Bureau

What do you want to know? We will answer questions on any subject not involving extended research. Legal or medical advice cannot be given. Write your question clearly, sign your name and address and (IMPORTANT) mail this coupon and a 3-cent stamped, self-addressed envelope to Daily Press Service Bureau, 1217 Thirteenth St., Washington 5, D. C., for a personal reply. Don't telephone; write as directed.

Q. In arriving at a veteran's eligibility for readjustment allowances, what is meant by net earnings in self-employment?

A. Net earnings include total cash income less necessary expenses incurred in obtaining such income. Claims offices should be consulted for definite instructions pertaining to the preparation of the statement applying to net earnings.

Q. What is the difference between "compensation" and "pension" in relation to VA payments?

A. "Compensation" is a term used to describe monetary benefits, other than retirement pay, payable on account of service-connected death or disability under laws administered by the Veterans Administration. The term "pension" is used to describe non-service-connected monetary benefits.

Q. From where does the carbonic acid in close rooms and cities come?

A. From the lungs of the inhabitants, the sewers, the drains, and other places where organic matter is decomposing.

Q. Why do wet feet or wet clothes give people a "cold"?

A. Because the evaporation absorbs the heat so abundantly from the surface of our bodies that its temperature is lowered below the natural standard, thus lowering the resistance of the body to germs.

Q. Why is a ship lighter traveling eastward than when traveling westward?

A. Because of the earth's rotation. Tests have been made which indicate that a 200 ton vessel traveling east offers 400 pounds less resistance to the water current than it does west bound.

zon marinus came originally from the ocean and is not native to the Great Lakes.

The lamprey clings to the larger food fishes with its round sucker-like mouth, armed with rows of strong, horny teeth; then rasps a hole in the skin of its host with its serrated tongue plates. It then injects a special chemical into the wound it has caused, which prevents the blood from clotting and stopping the flow. The parasite then gorges its intestines full of the fish's blood, seriously weakening and sometimes killing it in the process.

(Proposed methods of controlling the lamprey eel in the Great Lakes will be described in the second and last column on this subject tomorrow.)

—Clint Dunathan.

The Washington Merry-Go-Round

BY DREW PEARSON

Washington—President Truman still doesn't seem to realize that the real heart was taken out of the veterans housing program when he pushed Wilson Wyatt to the sidelines. In fact he became quite provoked at American Veterans Committee Chairman Charles Bolte last week when the question of housing came up.

Truman had asked the AVC leader what veterans are currently talking about and got the answer that the veterans were disillusioned, particularly about the housing program, with 4,000,000 veterans living

doubled up because of the housing shortage. Bolte added they are pretty disillusioned about the entire breakdown. Anggrily, Truman interrupted.

"It hasn't broken down," he said. "It's not fair to say that it has. We have to carry it out in a free market. I did everything I could to keep prices down. It wasn't I who raised the prices. It was the Congress."

Later in the discussion Truman gave his visitors a clue that he might not want to remain in the White House after 1948.

"I have only two big jobs," he said. "The first is to keep the world peaceful, the second is to get the productive machinery of this country running smoothly."

—WILL TVA LIGHT BROOKLYN?—

Senator Warren Magnuson of Washington made a startling prediction to President Truman during an off-the-record White House conference last week when he indicated that electric power from the Tennessee Valley might be used in Washington, Philadelphia or New York.

Magnuson, who urges more government power projects, especially in the northwest, told Truman that electric energy from these projects soon could be distributed all over the country.

"The ability to transmit hydroelectric power scientifically and cheaply at great distances is fast becoming a reality," said the Washington Senator. "It's a question of progress that has to be met and we should begin laying the groundwork now for our battles in Congress," he added.

Chief reason for the limitations of power distribution by sections, such as the Tennessee Valley, Magnuson explained, was the cost factor. At present, the construction of booster stations to transmit power from a project like TVA is expensive and makes the cost of long-range transmission prohibitive.

"However, we are in a position where we can lick this problem through scientific improvements in the booster system," Magnuson continued. "It won't be very long until we are able to distribute power over great distances at relatively cheap rates to consumers."

"In other words, hydroelectric power is fast growing out of its sectional pants and we've got to begin thinking of legislating some national trousers for it."

"You don't have to sell me on that," replied Truman. "I am aware that this question of power distribution is one of the most vital problems we have got to face. It would only be false economy for us to overlook the potentialities of our hydroelectric resources."

"We have only begun to harness them for the good of the whole country," the President added.

Both men agreed it was a federal job; that the construction of additional dams and booster networks was too big; and costly for private industry. However, they also agreed that power trust opposition in Congress would make the tumultuous battle over the TVA look like a circus sideshow.

"Well, I am convinced that we can triple or quadruple the distance of power transmission from those public hydroelectric projects at no greater cost to government," Magnuson told the President. "Eventually it will mean cheap power for consumers everywhere, not just in certain sections and I am sure a great many members of congress will support such a program."

Truman promised to back Magnuson's fight for appropriations but it remains to be seen if he is still of that opinion when this hot potato is dropped on Congress amid screams of "Socialism" by eastern Republicans.

—CAPITAL CHAFF—

Henry Wallace will visit France and England in April. He will not go to Moscow. . . . Motion picture star Jack Carson, who pays taxes in the big brackets, has telegraphed President Truman urging that congress cut taxes for the little fellow, not the big guy. . . . In February the Kaiser-Frazer Auto Company will show its first profit since it started making cars. . . . The American Embassy in Madrid reports that General Franco ordered a national holiday to honor the arrival of the new Argentine Ambassador. Franco was elated because of this proof that the Argentine government will not comply with the United Nations to withdraw their ambassadors from Madrid. Peron's answer was to send a new ambassador to Franco. In other words, from Colonel Peron to the United Nations, one kick in the teeth C. O. D.

Most important congressional battle of the next two years will be between those who want the big companies to get bigger and those who favor old-fashioned American competition since the federal courts have been upholding the anti-trust laws. Congressman Noah Mason

SINATRA GETS OVER A PEEVE

He Doesn't Want Fight With Movie Writer After All

BY ERSKINE OHNSEN
Hollywood (NEA)—Frank Sinatra apparently doesn't want to fight after all.

Some time after Frank had threatened to punch us in our "stupid mouth," one of his pals, Bobby Burns, telephoned to say that Frankie boy was in good mood and wanted to smoke a peace pipe. And would we have lunch with Frankie?

Johnson

Naturally, we never accept lunch dates over the telephone from strangers. Maybe it was just a plot to get us in some dark corner and hit us over the head with a bobby-sox loaded with cement. When Frankie himself calls we'll consider the matter of lunching with him, or slugging it out. We're in great shape—we've been taking steam baths, staying up late nights and listening to Frankie's records — trying to weaken ourself.

In fact, our theme song is "This Is the Week of the Weaking."

There will be no fireworks in the Gene Tierney-Oleg Cassini divorce. Just routine, on grounds of mental cruelty. Oleg will go on designing Gene's film clothes. Lana Turner is off to Mexico City again to visit Ty Power after completing "Green Dolphin Street." Wayne Morris is up for a "Kid Galahad" series on the air.

Jane Yarns for Freedom
Since her performance in "The Yearling," Jane Wyman is yearning for better things and probably will free-lance after her Warner contract expires next year.

There's a highly dramatic role awaiting her in the Lee Horton-Paul Bernard story "No Light in Her Eyes," if she finds the right producer.

Ingrid Bergman is so happy with "Joan of Lorraine" (who wouldn't be, at \$5,000 a week?) that she may extend the Broadway run into June or July before her vacation trip to Sweden.

It's a break for Enterprise, due to release "Arch of Triumph" around Easter. It means that In-

grid won't be appearing in another movie until the fall of '48.

Since both Catholics and Protestants are protesting its showings, how about giving that movie a new title, "Drool in the Sun." Every producer in town is on Eric Johnston's neck, yelling, "How can Selznick get away with it when I can't?"

Add Hollywood Hazards
Now it's something worse than the hand-wringing on the wall in Hollywood: It's sky-writing. Trying to film scenes representing 17th century England with the name of a 20th century soft drink floating through the air is driving one studio crazy.

Linda Darnell is buying a house near Taos, N. M., where she and Pev Marley—if the reconciliation goes through as expected—will spend their second honeymoon. . . . Burl Ives, the ballad singer, faces a serious operation in a few weeks. . . . Mitzi Green, the former child star, is awaiting her second visit from the stork. She's the wife of actor Joseph Pevney.

They've got everything including the chandelier on Carmen Miranda in "Copacabana." Yep, she's wearing a bejeweled chandelier as a hat.

State Traffic Toll Down 33 Per Cent From 1941 Record

Lansing (AP)—State police reported 1946 traffic deaths, contrary to expectations, were 33 per cent less than in 1941.

A prepared statement credited educational campaigns and the "carry-over effect" of wartime speed restrictions. "Car owners found they could get where they wanted to go at lower rates of speed," the statement said.

Total 1946 deaths were listed provisionally at 1,429, as compared to 2,133 in 1941 and 1,150 in 1945.

Still incomplete reports for last year showed 33,819 injured and 109,337 reported accidents. Injuries increased 24 per cent over last year and accidents, 33 per cent.

Former Resident Dies In Sandusky

Elmer W. Butler, 85, a resident of Escanaba many years ago, and grandfather of William Butler of 428 South Seventeenth street, died Tuesday, January 28, at the home of his daughter, Mrs. Nelson Rall, in Upper Sandusky, Ohio. Mr. Butler moved from Escanaba over thirty years ago, but often returned to visit and was known to many residents here. Funeral services were held Thursday afternoon in Upper Sandusky and burial was made there.

Keys To Achievement Are Listed By Babson

By ROGER W. BABSON

Babson Park, Fla.—For three score years I have been analyzing the causes of success and failure. Experience has taught me that financial success, job success, and happiness in human relations are, in the main, the result of (a) physical well being; (b) constant effort to develop one's personal assets; (c) setting up and working toward a series of life goals; (d) allowing time for meditation and spiritual regeneration.

Health and Success
Good health plays an important part in both contentment and achievement. Unhealthy persons generally lack poise, cannot sleep well; are fidgety. If we want happiness and success, if we want to avoid the ills that beset many Americans—headaches, indigestion, neuritis, backaches, and especially that tired feeling—then I suggest we adopt a set of simple rules of physical conduct and follow them rigorously. There is no royal road to health. Every person probably needs different treatment. That is why I urge you to seek your health rules from your physician. Be sure, too, that he gives you a thorough-going overhauling at least once a year.

Developing Personal Assets
Furthermore, if we are to be really happy and successful, we must discover the kinds of things we like most to do vocationally and are most capable of doing. Whether we be pupil or parent, I wonder if we realize that after-school and summer jobs have work elements which lead to good life jobs? For example, a part-time gas station attendant job, where the worker supplies the customer with gas, oil, air and

water, does not differ materially from many other types of permanent jobs in customer service work. Take schooling seriously. Correct English and spelling, for example, are the keys which unlock all subjects and many vocations.

It is important to develop a few hobbies—make model airplanes, collect stamps, cook, read about great men. We should seize every opportunity to visit places of work, shops, hospitals, farms and factories. If after such practices we still have not found ourselves vocationally, then it's time to pay a visit to a nearby college, university, or YMCA and ask them for help. Have them find out what special abilities we have such as mechanical aptitude, musical ability, clerical aptitude, social intelligence, etc. We must get a line on both our character and personality traits. How well do we get along with others? Have we initiative and drive? Are we dependable?

Setting Up Life Goals
Having thus discovered our interests, abilities, personal qualities, etc., our next step in self-development is to match our personal qualities to jobs that might well utilize our abilities and interests. Again, local school teachers, headmasters, the YMCAs, Veterans' Administration Centers will be glad to counsel with us. Our sights should be set on life goals; and every action planned to knock down the goals one by one like pins in a bowling alley. We must remember that the chief difference between an unsuccessful and a successful person is not one of knowing, but of doing.

Take Time to Meditate
Too many people these days are

living too much on nerve alone. To be sure, quantity of production comes from working energetically; but quality of life comes from exposure of the soul to great ideas, enabling thoughts, enriching personalities and inspiring meditation.

My automobile battery is of considerable help to me in turning the starter and lighting the lights on my car. But it will not give power for long unless it is connected with the generator. Too many of us are connected only with the starter. In missing exposure to prayer, music and meditation, we are missing the very thing that will build strength to make the rush of life possible.

Real success in life will depend much on how we feel inside about what we are doing. I've discovered that to feel right one must know that his labors are making not only himself but others healthier, happier, and more prosperous.

Menominee Judge Says Citrus Licenses Exempt Of License

Menominee, Mich. (AP)—Circuit Judge George W. Desjardins ruled that the Michigan State Department of Agriculture cannot exact an inspection fee on sugar-sweetened citrus juices.

His opinion was delivered in favor of the Carpenter Cook Co., wholesale grocers in a suit against the department. The state contended addition of sugar to citrus juices made them subject to the state inspection fee. The court held that sweetened juices are technically "pure" and therefore exempt under the licensing act.

ELECTRIC LINES INCREASE SPEED

New Current Collector Proves Boon To Railroads

New York—(SS)—No visible blue sparks will follow the contact between power line and locomotive trolley on electrified railroads with a new current-collector described to the American Institute of Electrical Engineers by B. F. Langer of Westinghouse Electric Corporation. The practical value of the device is that with it higher speeds are possible than with the present contact shoe.

These shoes, which ride along the electrified overhead wire on a diamond-shaped framework above the engine to pick up the current, now cause considerable trouble at speeds above 70 miles an hour. They act like miniature airplane wings, Mr. Langer stated. They flutter against the wire, thus threatening to break the circuit momentarily and creating the familiar blue light flashes.

The new shoes reduce this difficulty by means of slots cut in them, and by means of redesigned springs, practically frictionless, that keep the shoe in constant contact with the wire. The material used is thicker, but no heavier than present materials, thus giving greater wearing depth and longer life.

In actual tests on the road, there is no evidence of shoe-flutter at speeds up to the highest commonly used, and no visible arcing except at switches and cross-overs.

ECLIPSES TIMED

Each eclipse of the sun and moon repeats itself at definite intervals. If there were an eclipse of the sun now, there would be one in exactly 18 years, 11 days, 8 hours from now.

What Makes A GOOD JUDGE?

GLENN W. JACKSON

Candidate for CIRCUIT JUDGE

- Born August 24, 1885 at Hector, Ohio. Raised on a farm. Moved to Gladstone, Mich., in 1898. Graduated from Gladstone High School.
- Taught country school in 1903 and 1904.
- Graduated from the University of Michigan in 1908 and got his Doctor of Law degree in 1910.
- Worked on farms and in the woods and lumber mills of Michigan while attending high school and college.
- Practiced law in Chicago in 1910 and 1911.
- From 1912 to date, practiced law from Gladstone, Michigan including the whole field of general practice before State and Federal trial and appellate courts, and as counsel to other attorneys.
- Prosecuting Attorney, Delta County, 1927 to 1933.
- City Attorney, Gladstone, Mich., 1912 to date.
- Married in 1910 to Maude O'Connell of Montague, Mich. Has two married daughters.

GOOD CITIZENS WILL WEIGH ALL THE FACTS BEFORE THEY VOTE!

A "GOOD JUDGE" KNOWS THE LAW THOROUGHLY. Glenn Jackson's legal knowledge, gained in 35 years of practice, is so extensive that he is consulted by fellow attorneys on intricate points of law.

A "GOOD JUDGE" HAS CHARACTER. You know Glenn Jackson's integrity, his kindness, the judicial quality of his mind. You know that Jackson has character, the first requisite of a good judge.

A "GOOD JUDGE" HAS QUALITIES OF HEART AND BRAIN THAT LEAD HIM TO WEIGH MORAL CONSIDERATIONS AS WELL AS LEGAL TECHNICALITIES. Years of experience as farmer, lumberman, country school teacher, county prosecuting attorney and lawyer have brought understanding to Glenn Jackson. Jackson will make judicial decisions with his heart as well as his brain.

Stroke Fatal To Peter Blake, 91, Ford River Pioneer

Peter Blake, 91, of Ford River, one of Delta county's oldest pioneers, and a resident of this community since 1883, died at six o'clock Thursday morning at the family home. His death followed a stroke which he suffered two weeks ago.

Mr. Blake was born in Black Brook, N. Y., Sept. 11, 1855. In 1880, he moved to Negaunee where he worked on the section for the Chicago & North Western Railway for three years. He then moved to Escanaba and was employed in the roundhouse for a period of ten years.

In 1893, he settled on the farm at Ford River, which was his home until he died.

He is survived by the following children: Frank, Ford River; Mrs. Charles Dittich, Escanaba; Albert, William and Arthur, Ford River; Mrs. John Whitney, Escanaba; and Lucille, Ford River. He also leaves four grandchildren and three great grandchildren.

The body will be in state at the Boyce funeral home Saturday evening at 7 o'clock. Funeral services will be held Monday morning at 9 o'clock at St. Joseph's church. Rev. Fr. Alphonse, O. F. M., officiating and burial will be made in St. Joseph's cemetery.

WILLIAMS IS NOMINEE

Ishpeming—Stanley R. Williams, Marquette county school commissioner for several years, was nominated for reelection to that position by the county Republican committee at its meeting in the American Legion club-room here yesterday afternoon. J. J. Herbert, Manistique, was endorsed by the group for reelection to the position of Regent, University of Michigan.

Towns Are For Sale, Intact Or By House

Dragnetown, Utah (NEA)—This town is for sale—lock, stock and barrel, and one electric clock. Credit may be arranged.

Dragnetown is the latest government asset being offered to private buyers by the War Assets Administration. It can't be bought piecemeal. The buyer takes all, which would make him one of the most complete landlords in the country.

The town was built to provide living quarters for the miners who worked the nearby Geneva Coal Mine, and about 2500 people live here. The war ended before Dragnetown got completely finished. One of the assets that go with the town is a commercial laundry, still crated, some of it still undelivered.

The WAAA described the town officially as a "self-sufficient settlement," 23 miles east of Price, Utah, in Carbon County near Desolation Canyon. It is on the Denver and Rio Grande railroad; a state highway runs nearby. The project cost the government \$4,530,000.

The 604 one-story houses are of four, five and six room size and, with the accompanying business district, sprawl over a 377-acre area. Every house is furnished, even to rugs, draperies and linen; and the new landlord will get 500 electric refrigerators, 725 coal ranges, 705 heating stoves and 20 furnaces.

There is a 16-bed hospital with operating room, delivery room, and diet kitchen. The school contains the town's one electric clock. It also has a playground. The theatre seats 600 and has a candy display case that is included in the price. The general store has a meat case but the WAA hasn't said whether any meat on hand goes with the town.

For maintenance of 9000 yards of concrete highway that runs through the business district, and the gravel roads on which the neat redwood homes front, there are five dump trucks and a road grader.

The town has its own 500,000-gallon water reservoir and purifying plant and its own sewage disposal plant.

posal plant. There is a guest house that can be converted to a hotel.

As a final note of customer appeal, the WAA says the highest bidder can have the town's one official passenger sedan—presumably for his personal use if he likes.

Roebeling, N. J. (NEA)—This company-owned town of 754 homes and 15 business properties, nestled along the Delaware River about 10 miles from Trenton, is up for sale.

No outsiders need apply. First chance at the neat detached, semi-detached and "row" houses go to those already living in them. If they turn down the offer, other employees of the wire manufacturing company that owns the town will have a chance. The company figures all will be snapped up.

The town's residents, however, aren't exactly happy about the sale. They admit that the company town has been a good place to live. Each neat brick home has its own front lawn and its own garden area behind. The streets are wide and pleasant. And most important, rents have been low.

Nine-room houses have rented for only \$20 to \$26 a month, six-

room semi-detached homes for \$16 to \$20, and the four-room "row" home for \$13 to \$15. The company paid for all police and fire protection, for garbage collection and for other municipal services.

That's one of the troubles "Mayor" Jerry Pintof, manager of the town, admits. The company might not have been forced to sell if the IPA had allowed a general rent increase requested four years ago, he says.

Roebeling residents feel that the company-asked prices for the homes are too high; that they will have to dip deeply into previously hoarded savings to meet the prices—\$3200 for "row" houses to \$6000 for the larger homes. There are two superintendents "mansions" for which the company is asking \$16,000.

In addition, the villagers for the

first time will have to pay taxes and upkeep costs on the homes. Even so, the company contends that its asking prices "are far below anything you can find in the township."

The company already has deeded free to Florence township the four miles of streets and the street lighting and sewage system it built for the town.

Roebeling was started in 1906 and named for John A. Roebeling who designed New York City's famed Brooklyn Bridge.

School Hot Lunches To Get Less Aid; Federal Assistance Ends Soon

Starting Feb. 1 the schools in Delta and other Michigan counties serving hot lunches to pupils will receive two cents less per meal for each child than previously—and there is the prospect that no federal aid will be forthcoming when schools reopen next fall.

The majority of the rural schools in Delta county serve hot lunches at noon to the students, and in Gladstone a lunch is served to "bus children"—the students who are transported to school by bus from the outlying areas.

A cut in grants for the school hot lunch program, amounting to two cents a meal, was announced by Eugene B. Elliott, state superintendent of public instruction in Lansing.

"The reduction is required to keep within federal funds avail-

able to Michigan," Elliott said. "Starting Feb. 1 it will mean seven instead of nine cents a meal. With reduced reimbursements we hope to make available money stretch to June 30. As far as I can learn, no appropriation to continue the program is contemplated in Congress."

Hagley Quarnstrom, Delta county school commissioner, said he believed some way would be found to continue the hot lunch program in the schools of the county for the remainder of the school year, with the funds supplemented by the sponsoring units such as the PTA, or by the school boards.

"The program has been in operation sufficiently long so that its value is recognized," Quarnstrom said. "I am sure it will not be abandoned."

He added that during the pres-

ent school year several of the schools had found it difficult to obtain federal aid funds because of the voluminous reports required to be filled out. Reapplications were necessary and funds were often delayed.

The cost of the meals served the students at noon in all of the schools in Delta county exceeds the aid given by the federal government. The difference is paid by the students, the PTA or other sponsoring unit, or the school board. In many instances there are contributions of vegetables, canned goods or other foodstuffs to the hot lunch by interested parents or other persons in the school district.

School hot lunches are served at noon, usually consist of one hearty hot dish, bread and butter, milk, and dessert. Some of the schools have a cook to prepare the meal, paid by the PTA or the students.

Whether the hot lunch program would be continued during the next school year if federal aid is not forthcoming is problematical. Indicative of the cost in the state as a whole is the report by the superintendent of public instruction that:

In October the most recent

month for which figures are available, hot lunches were served in Michigan schools as part of a federal program designed to promote child health and dispose of surplus agricultural commodities. The program is used in 600 school districts and 475 separate schools.

Michigan's allocation was \$1,500,000 for food and \$262,000 for equipment from a federal appropriation. The cut in reimbursement was ordered because schools in the program would create a deficit before the fiscal year ends June 30.

Schaffer

Health Program Meeting
Schaffer, Mich.—Miss Grim, County School nurse will be at the Schaffer school on Monday, Feb. 16, at 3:15 to discuss a future health program. Teachers, as well as the summer-round up chairman will preside.

LINEUP OF STUDENTS—Not all the students of Coach Rouman's class were on hand when the photographer arrived to take pictures of this unique feature of the Escanaba adult education school. Students shown from left to right are: Lyle Shaw, Joe M.

Petryk, Rudolph Erickson, Eugene G. Royce, Tom Kristo, Mrs. Ardyth Shaw Schuster, Val Bedard, Lester Johnson and Roy Olson.

FISHERMEN'S SCHOOL—Escanaba fishermen are preparing for the opening of trout season by attending the adult education school's class in fly tying and casting. In the above picture,

James Rouman, instructor, is showing Eugene G. Royce, retired Escanaba banker, the art of fly casting. The class meets at the senior high school gymnasium on Monday evenings.

ONLY WOMAN STUDENT—Mrs. Ardyth Shaw Schuster of Escanaba is the only woman taking the course to learn how to get more and bigger speckled trout out of the Upper Peninsula streams. Instructor Rouman was just whipping out a fly when the picture was taken.

U. P. Briefs

WOMAN BREAKS LEG
Menominee — Mrs. Henry T. Sathney of 1016 Sheridan road fractured her left leg at noon today when she fell on an icy walk in front of the George W. McCormick home, 1320 Sheridan road. She is in St. Joseph's hospital.

DR. SETHNEY HONORED
Menominee — Dr. Walter F. Sathney of Tulsa, Okla., son of Dr. and Mrs. Henry T. Sathney of 1016 Sheridan road, is one of 31 Tulsans honored recently by the Tulsa Chamber of Commerce at its annual banquet for outstanding service to the Tulsa community during 1946.

The citation of Dr. Sathney was for "devotion of time and skill rendered beyond measure and without price to care for the victims of the poliomyelitis epidemic."

Dr. Ian MacKenzie was the only other Tulsa physician similarly cited.

SPURNS GUARD STATION
Sault Ste. Marie—Congressman Fred Bradley of Rogers City, who was recently appointed chairman of the marine and fisheries committee which controls Coast Guard expenditures has flatly turned down a proposal to establish a \$270,000 Coast Guard station near Rogers City. Commodore James A. Hirschfield of Cleveland commandant of the Ninth Coast Guard District told 700 guests at the seventh annual marine banquet here Saturday.

Commodore Hirschfield said that although some Coast Guard Stations like Bois Blanc and Hammond's Bay are being closed, improvements are to be made at many of the key stations like the Sault for greater efficiency.

Mrs. Henry Landis, Isabella Pioneer, Claimed By Death

Mrs. Henry Landis, 89, widely known early settler of Isabella, died at her home Thursday morning at 6:20 o'clock. She had been unusually active for her age, and her death, resulting from a heart ailment, followed only a brief illness.

Mrs. Landis was born in Mainz, Germany, Nov. 7, 1857. She had lived in Isabella for the past 65 years. She was a member of Bethel Lutheran church of her home community and of the Ladies' Aid Society of the church. Surviving her are five daughters, four sons, 34 grandchildren and nine great grandchildren. The sons and daughters are: Mrs. Emma Goodall, Isabella; Mrs. Barbara Krug, Chicago; Mrs. Rose Wepfer, Mrs. Julia Sundin and Mrs. Ruth Vinette, Isabella; Jake Landis, Isabella; Herman and Fred, Chicago; and Henry of Isabella.

The body, which was prepared for burial by the Anderson funeral home, will be in state at the Landis family home this evening. Services will be held Saturday afternoon at 1:30 o'clock, EST, at the family home, and at 2 o'clock, also EST, at Bethel Lutheran church. Rev. Clifford Peterson will conduct the rites. Burial will be in the family lot in Isabella cemetery.

Episcopal Marriage Canons Are Relaxed

Detroit, (AP)—More than 1,500 delegates representing 130 parishes attended opening sessions of the annual convention of the Episcopal diocese of Michigan.

The Rt. Rev. Frank W. Creighton, Episcopal Bishop of Michigan, celebrated holy communion services in St. Paul's Cathedral and discussed the new marriage canons of the Protestant Episcopal church.

The new canon, which became effective Jan. 1, relaxes the church's stand on divorce and remarriage.

Bishop Creighton announced admission of two new parishes, the founding of three new missions, and reduction in aid requests by 10 missions.

Three days of the week have the names of heavenly bodies, Saturday (Saturn's day), Monday (moon day) and Sunday (sun day).

STORM DRIVES IN FROM SOUTH

Snow And High Winds Tangle Rail, Motor Traffic In U. P.

All trunkline highways in the Upper Peninsula were reported open for traffic yesterday afternoon, but drifting was rapid and motorists were warned to stay at home unless it was necessary for them to be on the highway. Delta county roads were being plowed from the time the storm started but it was expected some side roads would be blocked by morning.

ADVISED ON SCHOOLS

Notice on whether Escanaba and Wells schools will be open today will be broadcast over WDBC at 7 o'clock and 7:30 o'clock this morning. In the county schools reopening will depend on the condition of the roads. They will not open if the buses are unable to get through.

At the Straits of Mackinac ferry service was halted at 9 a. m. yesterday by the high winds.

In Escanaba the northeast storm struck at 11 a. m. and quickly whipped the snow into drifts more than two feet deep. Traffic was disrupted, cars stalled, funerals were hindered with plows preceding the hearse into the cemeteries, and by mid-afternoon streets were nearly deserted.

Schools in Escanaba were dismissed at 2:45 p. m. to permit children transported by bus to get an early start for home. In the county the schools also dismissed early, and it was reported from Menominee, where the storm hit earlier, that students were dismissed at noon.

The dispute was believed to have centered on what the teachers called unstable employment conditions. The teachers apparently were protesting the board's action in refusing to rehire J. E. Ulrich as principal of the school.

The teachers also demanded correction of hazardous building conditions at the school. They claimed that hall and stairways

were narrow and unlighted.

The teachers dismissed their classes this morning and it's not known whether the pupils were merely obeying them when they walked out or whether they were in sympathy with them.

School board officials say they will meet tonight to try and settle the dispute.

Fishermen Flee

Ice fishermen hurried in ahead of the blow, fearful of becoming lost in the blizzard or of the ice moving out of the bay.

Fishing shacks in Little Bay de Noc went flying over the ice ahead of the wind, and in Big Bay de Noc the ice was reported to have shoved out as far north as Garden. The loss in nets set beneath the ice and lost when the ice went out was expected to run into thousands of dollars.

Escanaba fishermen said yesterday that if the wind continued strong it was probable the ice would push out of Little Bay de Noc, breaking somewhere between Portage point and Peninsula point.

One Escanaba fisherman, Joseph F. Pryal, 67, of 1312 North First avenue, was feared lost on the bay for a time. He was located near the Reiss coal dock, where his car had stalled when he tried to drive ashore. His absence caused apprehension when his son, James E., reported to sheriff's officers that he had been unable to find his father or the car on the ice at noon.

Railroads Blocked

Railroads south of Green Bay were tied up tight. The C. & N. W.'s Streamliner, the Peninsula "400," came through Escanaba from Ishpeming yesterday morning but was forced by the storm to tie up at Green Bay. It came back from Green Bay last night, running on its regular schedule from that city to Ishpeming.

No traffic came through from Chicago, however, since there were no trains running between Green Bay and points south. No. 161, the C. & N. W.'s Iron and Copper Country Express, due to leave Chicago last night at 6:30, was annulled.

The Peninsula division was less affected locally by the storm. While time-freights from Escanaba south to Green Bay were annulled, freight service between Escanaba and Ishpeming was continued. The local passenger, No. 10, running to Iron River, via Plover, went out on time last night.

City Plows

The Escanaba city street department started their plows out yesterday afternoon and by supper time had all streets opened. Plows ran all night, keeping ahead of the drifting snow. All plows were out but the tractor plows and the side-wing.

At 6 p. m. last night 44 inches of snow had fallen in Escanaba. The wind reached its peak velocity of 47 mph at 2 p. m. yesterday.

Babson Urges Moving Washington To West

BY ROGER W. BABSON

Washington, D. C.—Everyone who has seen the Pentagon Building here is astounded at its thousands of rooms, its miles of corridors and its acres of windows. Most thinking people breathlessly gasp and ask: "But why did they build the headquarters of the U. S. Army at this exposed location on the Atlantic Seaboard? Why didn't they build it in the center of the country where it would be much freer from bombing or revolution?"

Decentralization Is Security

The same question can be asked about the great Agricultural Department buildings;—they certainly should be in the Central West probably in Kansas which is the geographical center of the country. The Interior Department buildings should be in Kansas or Colorado; certainly not in Washington, D. C. Let us remember that the only reason for the capital being at Washington, D. C. is because that location then was the real center of the Thirteen Colonies which made up the original nation.

There is a debatable question as to whether all Departments should gradually be moved to one new central location in the West, or whether our capital should be split up into perhaps a half-dozen smaller capitals—so that "all of our eggs are not in one basket." I am inclined to the latter view; but the important thing is to lay plans immediately to start at least one New Washington somewhere. Let us not wait until World War III comes when our present Washington will probably be destroyed.

Babson Makes Suggestions

It might be well for the present to leave the Executive Department at the White House and leave Congress at the present Capital Building. The Executive Offices need much more room and they could take over the Treasury Building; but the State Department could remain where it now is. The Pentagon Building should be turned over to the Navy which should continue to have headquarters on the Seaboard.

The Treasury Department could be moved to Fort Knox (where all of our gold now is) or to some other place in the Middle West which would be convenient for all

concerned. The same applies to the Post Office Department, the Justice Department, the Labor Department and the Commerce Department. It is unsafe, unfair and inefficient to have them all cooped up in Washington—as at present. Moreover, if there ever is a communist revolution in America, it will be centered in the large cities of the East. Hence, in addition to maintaining Old Washington for certain departments, we should immediately begin to build one or more "New Washingtons." These should be in the Central West, all connected together by new government-owned radio, airplane and underground cable systems.

Fairness To Pacific Coast

Few people realize the great empire which is gradually arising on the Pacific Coast and in Texas. If the population of these four states continues to increase in the same proportion to the entire population, these four states in 30 or 40 years will have a majority of the Congressmen. This certainly would result in moving the Capital to the Central West. Hence why not begin moving now and be fair to the Pacific Coast and the Southwest?

I have been assured that if the move was up to the Senate alone, the change would be made at once because each state would then have the same number of votes. All would be equally interested in a central location. Only because the Eastern States now have so many more members in the House does the Capital remain on the Atlantic Seaboard.

Hospital

Marvella Juhl, 10, daughter of Mr. and Mrs. Carl Juhl of 14th avenue south, is a medical patient at St. Francis hospital. She was admitted Tuesday for treatment.

The ptarmigan is a bird of camouflage. During the summer, it is brownish-grey, in early winter its feathers are dappled with brown and white, and in the winter, it also sports "snow shoes," stiff white feathers edging its toes.

Near East Circle
The Near East Circle of the First Methodist church will meet this afternoon at 2:30 o'clock at the home of Mrs. H. L. Holderman 916 Seventh avenue south. Mrs. Byron Braamse will serve as assistant hostess.

Party Cancelled
The grocery party which Phoebe Rebeckah Lodge No. 179 planned for this evening at the I. O. O. F. hall, has been cancelled because of weather conditions.

Past Matrons' Club
The Past Matrons' club of R. C. Hatheway Chapter No. 49, Order of the Eastern Star, will meet at the home of Mrs. Elmer Swanson, 429 South 17th street, Monday afternoon, Feb. 3, at 2 o'clock. A large attendance is urged as officers for the coming year will be elected. Visiting Past Matrons are invited.

"Fireside Hour" Sunday
Immanuel Ladies' Aid will sponsor a "Fireside Hour" Sunday afternoon, beginning at 5 o'clock, at the church. A program has been arranged and a potluck supper will be served, followed by a social hour. Members and friends of the church are cordially invited.

Church Events

Triplet Choir
The Triplet choir of Bethany Ev. Lutheran church will meet Saturday morning at 8:45 o'clock, before confirmation.

If Housework Is So Easy, Men, Try It
BY RUTH MILLETT

Housework isn't really so hard, and most women love it, really.

Who says so? Why, a man, of course—Britain's wartime controller of temporary housing, Sir Thomas Bennett.

And how does he know? Well, he must have helped his lady around the house a bit during the war years, for he backs up his stand with the assertion that many men during the past few years "found washing up not nearly so formidable a task as we were told."

As if any man ever got an inkling as to what housework is like by drying the dinner dishes occasionally, or even mopping the kitchen floor now and then!

No man ought to open his mouth about the job of housework unless he can say that for at least six months he has, all on his own, taken over the routine and the responsibility of running a house for a family.

By that time he will have faced the problem of house-cleaning, discovered the monotonous regularity with which mealtime rolls around, met up with the tasks of shopping and marketing, found out just how much work is involved in a simple little dinner for six, learned to work with a small child or two cluttering up a house faster than it can be put in order, etc., etc.

Learn the Job First

For a man to make up his mind that housework is an easy job just because he didn't get worn out drying the dishes for one meal or got through a day of taking care of the children, after his wife had left the house in apple-pie order, cooked enough food to last all day and promised to be home in time to get dinner on the table and put the kids to bed, is comparable to a woman's going into her husband's office, taking a few telephone calls, straightening up his desk and then saying: "Your job's a snap."

And if you've any more comments, Sir Thomas Bennett, how

Brownie Troop
Group Advanced
To Girl Scouts

At a colorful investiture ceremony held Tuesday afternoon at the Youth Center, five Brownie members of Troop 6, became Girl Scouts and members of Girl Scout Troop 8.

The investiture was accented with the color guard ceremony, in which the girls of both troops participated. At the close of the ceremony, the newly invested Girl Scouts sang "Farewell Brownies" to the tune of "Good Night Ladies."

The five girls who became Girl Scouts at this investiture were Patsy Sarasin, Esther Newell, Marilyn Pintal, Patty Bolm and Donna Abrahamson. Their Brownie leader was Mrs. Irene Hogan. The leaders of Troop 8 are Mrs. H. C. Gerletti and Mrs. Byron Braamse.

Births

Mr. and Mrs. Carl Carlson of Ford River are the parents of a son, James Gary, born Jan. 25 at the Carlson home. It is the second child and second son in the family.

to a location south of Mrs. Emily
Bibb's home in East Lakefield.
All are welcome to these first ser-
vices in the new building.

Mr. and Mrs. Andrew Painter
and family returned to their home
in Detroit Wednesday evening.
They were accompanied by Ar-
dath Tucker who will visit friends
and relatives for about two weeks.
Word was received here of the
birth of a son to Mr. and Mrs.
George Wood of Manistique on
Monday January 20 at the Shaw
hospital. He weighed 8 pounds, 3
ounces.

Rev. and Mrs. Ralph Hill and
son Lyle were dinner guests of
Mr. and Mrs. Royal Haas of Cur-
tis, Tuesday evening.

Mrs. Oral Sly and Sam Sly re-
turned to their home here Satur-
day night after spending several
days visiting relatives in Lapeer
and Flint.

Mr. and Mrs. Jack Norton and
son of Manistique spent the week
end at the home of Mr. and Mrs.
Peter McInnis.

Mrs. Jennie Koonitz has accept-
ed a position at the Falls Hotel in
Newberry.

Mrs. H. J. Skinner and daugh-
ter Lois spent Monday and Tues-
day in Houghton on business.

Bruce Bellanger of Detroit is a
guest at the home of Mr. and Mrs.
Flored Tucker.

Mrs. Paul Baum and daughter
Geraldine entertained the knitting
club at their home Friday even-
ing. Due to illness several mem-
bers were absent. At the close of
the meeting a dainty lunch was
served.

Mr. and Mrs. Glenn Koonitz,
Lois Skinner and Jack Uhbeck
spent Sunday visiting in New-
berry.

Mr. and Mrs. John Kowalski
and son Jackie and Ruthie John-
son of the Sault were callers of
Mr. and Mrs. John Skinner on
Sunday.

Mr. and Mrs. Charles Pearce of
Sault Ste. Marie and Mr. David
Smith of Sault, Ontario were vis-
itors at the home of Rev. and Mrs.
Ralph Hill Friday.

Mr. and Mrs. Carl Hammond
spent Sunday in Newberry visit-
ing Mrs. Hammond's mother, Mrs.
Ruby Roat and other relatives.

Mrs. Ralph Hill taught Wednes-
day in the local school in the
absence of Miss Olive Marley.

Mr. and Mrs. John Skinner and
children were guests of Mr. and
Mrs. E. C. Kalbach of Newberry
Sunday evening.

Rev. and Mrs. Arthur Glen,
Mrs. Effie Sawrey and Jack
Launderville of Escanaba were
dinner guests of Rev. and Mrs.
Ralph Hill on Sunday evening.

Bill and Gene Mainville were
business callers in Newberry
Tuesday afternoon.

Margaret Nash, daughter of Mr.
and Mrs. William Nash celebrated
her ninth birthday Monday Jan.
27. After school Margaret with
her two sisters, Marilyn and Edna
and Jacqueline and Rosale Rose
had birthday cake and ice cream
at her home.

Samuel Sly celebrated his 77th
birthday anniversary on Monday.
During the afternoon and evening
many friends called on him to of-
fer congratulations and help him
eat birthday cake.

Germfask

Church Services

Germfask, Mich.—Mass at St.
Therese Catholic church Sunday
Feb. 2, 10:30 a. m.

Lawrence Miller, son of Mr. and
Mrs. Alex Miller returned home
Tuesday after serving in the army
for about two years. For the past
year he has been stationed in
Korea.

Philip Brow left last week for
Detroit where he will be employ-
ed.

Mr. and Mrs. Clayton Riley and
son Melvin of Manistique visited
relatives here Sunday.

Mrs. Clifford Van Schoyck re-
turned home Saturday from Green
Bay Wis., where she had spent a
week with her husband who is
employed there. He accompanied
her home and spent the week end
returning to Green Bay Monday.

Mrs. Thurman Skarritt and Mrs.
George Leimontine made a busi-
ness trip to Manistique Monday.

Kathlyn Shay who is employed
at Manistowic, Wis. spent the week
end here with her mother, Mrs.
K. Shay. She was accompanied by
Dr. Sandretto.

A games party will be held at
the Community Building Sunday
evening Feb. 2. Sponsored by the
St. Therese parish.

Petitions filed with the town-
ship clerk for the primary election
are as follows:

Supervisor, Frank Conlon and
Ovid Swisher.

Treasurer, Fred England.

Clerk, Floyd Menere.

Highway commissioner, Harry
Rutigli.

Justice, Norman Stauffer.

Club Party

The Community Club were en-
tertained at the home of Mr. and
Mrs. Andrew Christie of Gould
City on Thursday evening.

Chicken dinner was served af-
ter which a business meeting was
held presided by the president,
Jean Lustila. Plans and regulation
were discussed concerning the
community building. After the
business a social evening with
cards was spent. Ladies prizes
were won by Ruth Lafreniere,
Edna Skarritt and Mrs. Shay.
Prizes for men went to Harvey

SNOW STORM SWEEPS AREA

**Trains Held Up; School
Pupils Sent Home
Early**

Storm conditions brought a halt to northbound rail traffic at Milwaukee Wednesday night and as a result this city was without mail and metropolitan newspapers yesterday.

Soo Line passenger train No. 8 out of Minneapolis came through yesterday morning and was on time into Gladstone. As far as can be learned this was the only passenger train that operated in this area.

Chicago and Northwestern and Milwaukee road trains were cancelled and a Milwaukee train which was to have been made up yesterday afternoon for a trip south was cancelled.

There was a question whether No. 7 westbound from the Soo to Minneapolis would continue beyond Gladstone upon its scheduled arrival here last night.

The Perkins school let out early in order that students from out of the village might get home before the storm reached its height.

The Brampton township bus driver also collected his young passengers early and they were dismissed about 2 o'clock from the school at Kipling and Gladstone high.

Briefly Told

Novena Service — Novena services are to be held tonight at 7:30 o'clock in All Saints' Catholic church.

Church Meeting — A regular business meeting of the First Baptist church is to be held tonight at 7:30 o'clock in the church.

Eggs Tested By New Robot Egg Candler

Ithaca, N. Y., (SS.)—If you get fewer unpleasant surprises per dozen eggs in future purchases, credit it to the robot electronic egg candler developed here by Prof. Alexis L. Romanoff of Cornell University.

Operation of the new machine depends on differences in quantities of electronic energy absorbed by good and bad eggs. Each egg is placed in a coil, which discharges very short radio waves into it. Good eggs absorb less energy than bad ones. This differential can be used, through a suitable relay, to route the good ones into crates, the bad ones into the discard.

The device can even be adjusted to distinguish between good eggs and better-than-good eggs. Merely good eggs need to be sold and used promptly; better ones can be stored with reasonable expectation that they will stay good for a while.

The method is not completely perfect. Blood spots if present, are not detected; but all other egg faults are shown up. So one visual candling, to spot blood spots, is still necessary.

The new method is considered nearly 100 per cent accurate as against the 75 per cent accuracy of the time-honored candling system.

Rights in the patent covering Prof. Romanoff's invention have been vested in the Cornell Research Foundation. It is hoped that some manufacturer will develop it for commercial use.

CARNIVAL QUEEN—Margaret McLeod, pretty brunette Gladstone high school senior, who is presiding as queen over the Gladstone Winter Sports Carnival which opened here last evening. The coronation will take place at Terrace Gardens tonight.

Winter Carnival Opens With Ball At Terrace

The annual carnival ball at The Terrace tonight will be the opening event of the annual Gladstone Winter Sports Carnival.

Queen Margaret McLeod and members of her court and Winter King Irving Johns will be guests of honor at the party.

Ivan Kobasic and his orchestra will play the dance program. Ticket sale for the event has

Taxi Fare Fraud Case Brings Fine

Arrested at Marquette on a simple larceny charge, John D. Cortez of Carlshend was returned to Gladstone by Michigan State Police to answer to a complaint made by a former owner of the Veterans' Cab company that he had defrauded the firm out of \$6.50.

Cortez admitted the charge in Justice O. C. Estenson's court and was ordered to make restitution, and pay a five dollar fine and costs of \$3.35, or spend 10 days in the county jail.

The complainant declared Cortez left the cab to enter a building in Escanaba presumably to obtain money to pay his fare and never returned to the auto.

Cortez was arrested in Marquette by Michigan State Police.

MISNOMER?

Spring tides occur at all seasons. They are the excessively high and low tides coming at the times of the new and the full moons.

OLD RESIDENT PASSES AWAY

**Andrew H. Erickson Was
Resident Of City
Half Century**

Andrew H. Erickson, 76, of 607 North Seventh street, died early yesterday morning at St. Francis hospital where he had been a patient for the past three weeks.

Erickson had been a resident of Gladstone for the last half century.

Erickson was born in Overmark, Finland, May 3, 1870, and came to the United States and Gladstone when a young man. He was employed by the Soo Line railroad as a section man for many years.

He was preceded in death by his wife, Lena.

He was a member of the First Lutheran church and affiliated fraternally with the Order of Runeberg.

Surviving are four daughters, Hilda Erickson and Mrs. Albert Buckman of Gladstone, Mrs. Arthur Gauger and Mrs. Mark Nelson of Oak Park, Ill., a son, Ewald Erickson, of Chicago; two brothers and one sister, Gust Erickson of Gladstone, John Erickson of Finland and Mrs. Isaac Jackson of Gladstone. There are also six grandchildren.

The body was removed to the Kelley Funeral Home where it will rest in state beginning at 1 o'clock this afternoon and continuing until 1 o'clock Saturday when it will be removed to the First Lutheran church.

At the church it will rest in state until the hour of last rites which will be at 2 o'clock Saturday afternoon with Rev. Clifford Peterson officiating. Burial will be made in the family plot in Fernwood cemetery.

Social

GIA Party

Members of the GIA and their husbands were entertained Wednesday evening at the home of Mrs. William Birmingham. Cards were played during the evening with first in five hundred going to Mrs. E. C. Krout and first in smear to Mrs. C. C. Schuler. Mrs. Schuler also received a special award. A tasty lunch was served at the close of a pleasant evening.

With the arrival of long awaited snow plans are now going forward for holding of the flat or cross country ski races on Saturday and Sunday.

Downhill events will be held the following weekend, according to present plans.

Turkeys are the only native American representatives of the pheasant family.

Magnetized Wire Improves Music

New York—Better music from magnetized wire records, whether in homes or theaters, will result from a new testing instrument that makes a continuous picture on a lighted screen of the magnetic properties of the wire as it is passed through the device.

The new instrument, called a "cathode ray oscilloscope hysteresis loop tracer," can also be used to test the magnetic properties of alloys at each stage in the manufacture into wire. The device, and methods of use, were revealed to the American Institute of Electrical Engineers here today.

Schoolcraft County
Dime March Under Way

The March of Dimes is on in Schoolcraft county.

Due to lack of coordination on the part of the various agencies having to do with the conduct of this worthy cause in the county, little has been done and much valuable time has been lost. Donation containers, however, have been ordered and will be placed in stores, taverns and public places in the county and several parties are being planned, the proceeds of which will be donated to the local chapter. It is also expected that collections will be taken at public gatherings.

Local sponsors state that there seems to be a misunderstanding concerning the use of the funds secured. Many people seem to be of the impression that the funds are being spent for research work and that the money goes to the national foundation. This is only in part true. Fifty per cent of the funds go to the national foundation and the remainder stays in Schoolcraft county.

Schoolcraft county to be expended at the discretion of the local chapter.

Some of the local funds, in the past, have been expended to provide special nurse's training for polio therapeutics and for care of patients at the Marquette hospital. But most of the funds remain intact in the county ready to meet emergencies or to help provide the convalescent patients with crutches and other appliances.

Hermansville To
Play At Cooks

The Hermansville Silver Foxes are scheduled to meet the Cooks Town team at the Cooks gymnasium this evening at 8 o'clock.

State governments spent about half a billion dollars on highway construction in 1946 as compared with a billion and a half spent in 1930.

25 REGISTER
FOR SKI MEET

Ski Riders Of Note
Will Participate In
Sunday Event

Skiing that promises to be the most spectacular ever seen at the local tower is in prospect for devotees of the sport who attend the tournament here next Sunday afternoon. Twenty-five outstanding ski jumpers have already registered for the event and many more have made known their intention of being present and competing for the prizes offered.

Among the more prominent Class B jumpers who have registered are Allan Homari, of the Iron Mountain Kiwanis Ski club; and his team mate, Harry Miron. Ishpeming Ski club will send Clifford Perrault and Bob Ellis for the B event. Robert Minkin of the Ironwood Gogebic Range Ski club and John Grodesky of Escanaba will also be prominent contenders in this class.

While outstanding riders in the Class C division will perform here from Iron Mountain, Ironwood and Ishpeming, the Manistique Ski club's recent success at the Ottawa ski classic last Sunday indicates that the local team can

Concessions At
State Parks To
Be Let By Bids

Concessions at Michigan State Parks, including the Indian Lake State Park and the Palms-Book

hold its own in this division.

The Central U. S. Ski association recently announced that the following officials will be in charge: Judges, Leonard Flaa, Ishpeming, and Walter Wick, Ironwood. Chief scorer, John Osterman.

All members of the Manistique Ski club are asked to report at the tower at 9 o'clock Saturday morning.

State Park (Big Spring) will be awarded to the highest bidder, according to information recently received by Robert O. Olson, manager of the Indian Lake State Park.

The bids, it is understood, will be based on the percentage of

gross income plus a bonus to be paid to the state. There are no living quarters available to the concessionaires at the local parks as these are reserved for the park managers.

AREA IN GRIP OF SNOWSTORM

Rural School Children Sent Home Early Thursday P. M.

Manistique, in common with areas in general throughout the middle west, is in the grip of the most severe snowstorm of the year.

Warned several hours in advance that the heavy fall of snow which had paralyzed rail and motor traffic in Chicago and Milwaukee had reached Marinette and Menominee, school authorities took the precaution to send the students living in outlying districts home before the storm arrived. The storm arrived about 2 o'clock and gradually thickened as afternoon progressed.

The morning bus train from the west arrived on time but without passengers, mail and express from Chicago and Milwaukee, as the Milwaukee train from those points had not as yet reached Pembine. There was also no traffic from lower Michigan as the ferry is tied up at the Straits on the Mackinaw City side.

The blood vessels in an adult, if laid end to end, would reach four times around the earth.

Magazine Article Will Play Up Achievement Of Dickie Demers Of Cooks

A fourteen-year-old Schoolcraft county schoolboy is breaking into the national picture in a big way. An agricultural magazine of national circulation is soon to use him and his achievement in a feature article.

That young man is Richard "Dickie" Demers, a new state champion 4-H potato grower of Michigan, and he comes from the Cooks vicinity. Dickie won state honors with a phenomenal yield of 618 bushels per acre grown on a one acre plot of his father's 120 acre farm. This achievement is responsible for the forthcoming article.

Young Demers, whose parents are Mr. and Mrs. Wayne Demers, not only established a new 4-H growers' record for Michigan, but in the process set an all-time record yield for his home county, eclipsing his nearest adult competitor by a margin of 77 bushels per acre. In 1942, the man who won the title of Michigan's potato king produced 560 bushels per acre on his Schoolcraft county farm, and this year, the highest adult yield in Demers' home county was 541 bushels, grown by a neighbor.

Won In 1945

Dickie, now in the ninth grade of Cooks Consolidated school, has completed his third year of potato club work. He gave promise of future achievement when in 1945 he won top honors in the 4-H division of the Schoolcraft County Potato Boosters association contest with a total yield of 416 bushels per acre. His record and sample of potatoes were entered in the Upper Peninsula Potato Growers contest for 4-H club members where he again won top honors.

Thus inspired, young Demers worked harder than ever, and in 1946 turned in his yield of 618 bushels per acre—an unprecedented crop for his county. The yield won him the trophy of the Boosters association and his sample and record were again entered in the Upper Peninsula 4-H Growers contest, in which he won first handsily. Since there was no state potato show this year, Dickie was unable to compete for state honors, but records sent in to the state 4-H extension office revealed that he had a clear title to the Michigan 4-H championship.

His yield was checked in the field by J. L. Heirman, county agricultural agent, and Fred Bernhardt, district 4-H club agent, who dug and weighed four rod rows of potatoes.

Here is what he did to prepare the soil for the crop:

Care Used In Preparation

First of all, he plowed under a

hay crop of red clover in July of 1945. After working up the soil, he seeded it to buckwheat, which in turn was disced into the soil at blossom time. In the spring, he applied 15 loads of barnyard manure on the one-acre plot and at the time of planting applied 750 pounds of 3-12-12 fertilizer per acre. Between the applications of fertilizer, he disced the soil, which was also summer fallowed at least 10 times to kill weeds. Twenty-two bushels of certified Russet Rural seed which had been green sprouted for 10 days and treated with corrosive sublimate, were planted on the acre on May 29. The rows were spaced 32 inches apart and the plants 11 inches in the row. After the plants were up they were cultivated three times with a tractor cultivator and hoed once by hand. During the season they were sprayed 11 times with Bordeaux mixture to control blight. In addition, DDT was supplemented to control insects. The crop was harvested on September 28 after the frost had killed the plants on September 19.

Figuring the support price of potatoes at the present time, young Demers will realize approximately \$550 from his crop, plus an additional five dollars for show prizes and two trophies. The cost of growing the acre of potatoes, which includes rent, seed, fertilizer, labor and spray materials amounted to \$122. His net profit will be approximately \$425.

Dickie is going places in potato production—there is no question about that. He still has six years in 4-H competition, and is determined to improve each year. His competition is stiff—this year several 4-H club members produced over 400 bushels per acre, and the runner-up for local honors, Donald Tennant, had a yield of 566 bushels per acre.

It's a potato growing country in Schoolcraft county—and its potato growers, youthful though they be—bid fair to write a new chapter in the potato industry in their fertile battlefield.

Supreme Court Rules Alger County Must Hold Primary Election For Circuit Judge

Munising—Alger County Clerk John Carr received the following reply in answer to his query whether or not a primary election would have to be held in Alger county due to the fact that only one person, present Judge H. W. Runnels, of Sault Ste. Marie, is running for circuit court judge of the 17th district:

"County Clerk, Alger county, Munising, Mich.:

"Supreme Court holds non-partisan primaries for all circuit judges necessary.

"Signed: F. M. Alger, Jr., Secretary of State."

Mr. Carr had questioned the fact of having to hold a primary, along with City Clerk William Dore of Munising. Mr. Carr and Mr. Dore said it would cost the county and city approximately \$2,000 to run the election on February 17.

In 1941 a similar question was raised and the primary election was cancelled on the following ruling of Public Act No. 1, of Public Acts of 1941:

(6.20) Non-partisan primary not to be held if no contest.

Sec. 9. If upon the expiration of the time for filing petitions for the general primary election held on the third Monday in February, it shall appear that, as to any office on any non-partisan ticket there is no opposition, then the officer with whom such petitions are filed shall certify to the proper board of election commissioners the name of such candidate whose petitions have been properly filed, and such candidate shall be the nominee for such office and shall be so certified. As to such office there shall be no primary and such office shall be omitted from the primary ballot. The provisions of this section shall likewise apply where more than one candidate is to be nominated for any office and there are no candidates there are persons to be nominated.

This act is ordered to take immediate effect.

Approved January 23, 1947.

The following election law was passed in 1946:

(163) Non-partisan primary not to be held if no contest.

Sec. 9. If upon the expiration of the time for filing petitions for the general primary election held on the third Monday in February, it shall appear that, as to any office on any non-partisan ticket there is no opposition, then the officer with whom such petitions are filed shall certify to the proper board of election commissioners the name of such candidate whose petitions have been properly filed, and such candidate shall be the nominee for such office and shall be so certified. As to such office there shall be no primary and such office shall be omitted from the primary ballot. The provisions of this section shall likewise apply where more than one candidate is to be nominated for any office and there are no candidates there are persons to be nominated.

According to the telegram received, it was pointed out, each county effected in the district, which includes Alger, Luce, Chippewa and Schoolcraft counties, will have to conduct a primary election costing the tax-payers undue amount of monies.

Mr. Dore estimated yesterday the cost to tax-payers for the coming election will amount to from \$300 to \$400, not figuring the cost of printing the ballots.

Mr. Carr earlier in the week had telephoned the office of the attorney general in Lansing and received the same answer confirmed by the telegram received. Both the city of Munising and Alger county officials are going ahead with election preparations.

STORM HITS ALGER COUNTY

Mail Delayed As Trains Are Cancelled From South

Munising—The snowstorm, which hit downstate and Wisconsin territory Wednesday, moved in on Munising and Alger county about noon Thursday.

Munising residents were surprised Thursday morning by the lack of snow, on hearing news-reports from Detroit and Milwaukee, telling of the storm experienced there Wednesday. Mail from those areas did not arrive in Munising on Thursday but, according to Edward Genry, local postmaster, Detroit mail for Thursday is expected to arrive in Munising on Friday, being rerouted here from Marquette late Thursday evening.

It was understood by the Munising postoffice that the North Western train No. 162 from Neenah to Escanaba and return, had been cancelled and that all North Western trains from Milwaukee north had also been cancelled.

Mr. Genry said the mail was being rerouted to go out as usual on the star route to Little Lake, but could not guarantee it would go any farther than that terminal point unless the trains would put back in regular service.

Cars from Lower Michigan that had braved the storm entered Munising Thursday morning, covered with snow.

Veterans Attention

Saturday Is the Last Day In Which You Can Reinstate Your Government Insurance Without Being Required to take a Physical Examination.

Do Not Neglect This

The Office of The Counsel of Veteran Affairs will be open to assist you all day Friday and Friday evening and All Day Saturday. This ad has been ordered by the local posts of the American Legion, the V.F.W and the D.A.V.

CARD OF THANKS

We wish to extend our heartfelt thanks for the kindness and sympathy tendered us at the time of our recent bereavement, the death of our beloved father and grandfather, Martin Johnson. Especially are we grateful to Rev. Harold Cowdick, those who sent floral bouquets or other expressions of sympathy, those who donated the use of their cars, those who served as pallbearers, and all others who aided us in so many ways. The memory of these acts will ever remain with us.

Signed:

Mr. and Mrs. Joe Carlson and family
Martin and Floyd Peterson

Collins Tells Of Efforts To Place Veterans In Jobs

Munising—Some employers are beginning to refuse to give employment to veterans who have exhausted their servicemen's readjustment allowance, C. E. Collins, assistant veterans employment representative, said in an interview yesterday at the Michigan State Employment Office in Munising.

Mr. Collins is in charge of the Upper Peninsula VER office with headquarters in Marquette, and was visiting here yesterday.

He said that employers are taking the attitude that most of these veterans, who have taken all of their readjustment allowance, are demonstrating a poor attitude towards work and would probably have no ambition and show no initiative in taking a job now that their allowance has run out. Not only would such veterans have a poor mental approach to work, but they may have lost a lot of their skill in their line and would have to be taught again with a loss to the employing company in the amount of production made, he said.

Mr. Collins pointed out, however, there is a small proportion of unemployed veterans as to the number of discharged persons as of Nov. 9, 1946, which figures are available at this time. He said there are 700,000 unemployed out of that date. A very small portion of ex-GI's are exploiting the servicemen's re-adjustment allowance

NOTICE TO BIDDERS

Notice is hereby given that the County of Alger will receive written sealed Bids to be filed with the Alger County Clerk at Munising, Michigan on or before February 7, 1947 for the re-decorating and papering of the Sheriff's Quarters in the Court House at Munising, Michigan. Further details and specifications may be secured at the Alger County Clerk's Office. The Board of Supervisors reserves the right to reject any and all bids.

Eskymos Meet Soo Blue Devils In Basketball Feature Tonight

BRAVES PLAY AT ISHPeming

Gladstone Team Bucks Hematite Record Of Nine Wins

Gladstone, Mich.—The Gladstone High school basketball team will be faced tonight with the same problem that has bothered them all season—only more of it. Lack of height has proved a great handicap to the Eskymos and tonight they will oppose one of the peninsula's tallest high school teams, The Soo Blue Devils.

The Watson coached quint has won nine straight games and some observers believe it to be the best of the Ishpeming mentor has produced.

While Coach Eldon Keil sees little chance of topping the Ishpeming five there are others who point out that Escanaba almost scored an upset over the Hematites and that the Braves had little trouble with the Eskymos, both Gladstone and Ishpeming winning from Rouman's crew by about the same margins.

Scheduled to make the trip are Valand, Anderson, Gillis, Keo, Richards, Pearson, Madden, Williamson, Young and Marmilick.

Wayne U. Plays At East Lansing

East Lansing, Jan. 30 (P)—Michigan State College's basketball team will try to snap a five-game losing streak here Saturday night when it takes on Wayne University, 52-25 victim of the Spartans earlier in the season.

Footballer Lynn Chandross was moved up to the M.S.C. varsity this week in an effort to give the Spartans more height under the basket.

The left-handed hook shot specialist probably will be used at forward. Coach Ben Van Aalstine said, replacing either Robin Roberts or Bob Geahan.

The FD-1, first carrier jet fighter, is also the first Navy fighter to fly at a speed exceeding 500 m.p.h.

A basketball coach quite frequently can correct his team's ills, if faulty shooting, loose ball handling or improper techniques

Munising Mustangs Eager For Victory Over Eben Quintet

Munising—The Mather high school Mustang basketball team will meet the Eben Junction school quintet here on the home floor at 8:30 o'clock Friday evening. Coach Bob Villeneuve announced.

With three wins and four losses chalked up so far this season, the Mustangs are eager to balance the sheet and come out the winner tonight to make it stand at four games on both sides of the ledger.

A preliminary game between a second team from each school will begin at 7:00 p. m. Friday.

Trippi And His Boss Unhurt In Smashup

Atlanta, Jan. 30 (P)—Charlie Trippi, All-America halfback at Georgia, and Charles Bidwill, 51, wealthy owner of the pro football Chicago Cardinals with whom Trippi has signed a contract, escaped with minor cuts in an automobile accident east of here today.

Grade Basketball Schedule Issued

The basketball schedule for the grade school league Saturday at the junior high school gymnasium was announced yesterday by Cliff Frasher, director, as follows:

9:15-10:30—Washington vs. Jefferson.
10:30-12:00—St. Joseph vs. Barr.
1:15-3:15—Nahma 5th and 6th graders vs. Escanaba 5th and 6th graders.
3:15-4:30—Franklin vs. Webster.

Pitcher Who Lost Leg Honored For Comeback In 1946

Philadelphia, Jan. 30 (P)—Monty Stratton, former Chicago White Sox pitcher who lost a leg as the result of a target-shooting accident in 1938, tonight was given the "most courageous athlete award of 1946" for his comeback with the Sherman club in the East Texas Baseball League.

The award is made annually by the Philadelphia Sports Writers Association.

Stan Musial, slugging St. Louis Cardinal first sacker, was hailed as the outstanding athlete of 1946 and George Connor, Notre Dame tackle, as the college lineman of last year.

A crowd of 1,100 attended the dinner.

Stratton, taking a regular turn on the mound with the help of an artificial right leg, was acclaimed the best right-handed pitcher in the East Texas League last season as he won 18 games and lost 8 of the 27 he started. At one point he had a nine-game winning streak.

Monty, now 33, was target shooting, when his revolver accidentally discharged. The bullet struck below the hip, coursing down to the knee. The next day an amputation had to be performed.

The White Sox obtained Stratton in 1934 from Galveston of the Texas League. He was farmed out to St. Paul of the American Association in 1935, winning 17 and losing 9. In his first full year in the majors in 1936 he won five and lost seven for the Sox.

By 1938 he seemed headed for a bright major league career, having won 15 games for the Sox that season.

GRID PROS NEED AN IRON RULER

Hesitancy In Gambling Probe Bad, Claims Grayson

BY HARRY GRAYSON
New York, (NEA)—When a jury found Alvin J. Paris guilty of offering bribes to them, Bert Bell finally got around to suspending Merle Hapes and Frank Filchock.

Although police picked up Paris, Hapes and Filchock on the eve of the Bears-Giants playoff, Dec. 15, Commissioner Bell had not yet made up his mind regarding the noble athletes. He asked for even more time before deciding their professional fate.

Testimony at the trial brought out the fact that Filchock got into the pay-off payoff because he lied to Mayor William O'Dwyer in the wee, small hours preceding the game.

Hapes was not permitted to participate because he told the truth. The mayor gave Filchock a clean bill of health when told by the player that he had no direct offer from would-be fixer Paris.

Now you hear talk that, with Bill Paschal, and others out with injuries, the New York club hardly could have taken the field without tailback Filchock.

And the fact remains that Hapes and Filchock failed to tell the proper authorities about the proposition made to them.

As Commissioner of Baseball, Judge Landis gave men life for less than that.

All Buck Weaver did was sit in with the Black Sox at their first meeting. The famous third baseman told them they were crazy, would have nothing to do with the plot, played excellent ball, but was barred forever because he didn't holier cop.

There might have been an excuse for Weaver because nothing like the throwing of a ball game had ever before been washed publicly.

College-bred well-paid Hapes and Filchock had plenty of precedent to warn them, however—in baseball if not football.

The biggest rap against the National League's current administration is that with all the suspicion talk, the football people were spectators while the law swooped down upon Paris, Hapes and Filchock.

This despite the fact that Paris had whined, dined and otherwise entertained his intended dupes for three weeks.

"Paris was a good fellow," says Filchock, even now. "He was nice to a lot of football players."

It is all well and good for Bert Bell to campaign for further legislation against gambling on sports, but his hesitancy makes it clear that professional football needs at its head what baseball used to have—a strong man.

LETTUCE LURES 3 ARMY STARS

Davis, Blanchard, Poole Ask Furloughs To Get Into Pro Ranks

New York, Jan. 30 (P)—Glenn Davis and Doc Blanchard, Army's three-time All-America backfield stars, have elected to shelve their military careers temporarily—along with a third teammate, End Barney Poole—to cast their lot with the professionals in quest of gridiron gold.

This was disclosed today by the War Department, which announced in Washington that all three players have asked for four-month furloughs from army duty next fall in order to play professional football—unprecedented requests which at this moment are under consideration.

The announcement created a flurry of excitement among club owners of the All-America conference, meeting here in annual session, and immediately touched off a series of maneuvers likely to reach a new high in the running battle between that loop and the rival National League.

No indication could be found in the brief announcement to hint what the War Department's final decision would be. The three players are scheduled for graduation from the military academy at West Point in June with commissions as second lieutenants.

The academy itself took a position of official silence and the players were not available for comment.

But words flew thick and fast at the All-America conference meeting. Davis, one of the fastest halfbacks ever developed, was drafted by the San Francisco 49ers of the All-America loop and by the Detroit Lions of the National League. Blanchard, hard-driving fullback with plenty of speed for a 210-pounder, was picked by the Pittsburgh Steelers in the National League and the Brooklyn Dodgers in the All-America circuit.

In a matter of minutes, President Bill Cox of the Dodge club went into a hubbly with Anthony J. Morabito, head of the 49ers, and Morabito announced that the Dodgers had agreed to relinquish their rights to Blanchard in favor of the San Francisco club, thus giving the 49ers a free hand to deal with both members of the great double-barreled backfield combination.

In Detroit, meanwhile, a spokesman for the Lions said they were "keenly interested" in making a similar deal with Pittsburgh in order to try for both Blanchard and Davis, but conceded that "Pittsburgh also is after our rights to Davis in hope it can get uniforms."

As for Davis, the Detroit official declared "we are prepared to make him just as good an offer—or even better—than the San Francisco 49ers." Only a few days ago, the Lions outbid the 49ers for Clyde LeFlore, signing the Tulsa star to a two-year contract.

At Pittsburgh, a spokesman for the Steelers described the war department announcement as a "surprise move."

David and Blanchard have indicated a desire to remain together for their health and protect Louis from butting the headgear will also make it clear that the appearance is an exhibition. There will be no decisions. Frequently rounds will be of two-minutes duration. As many cities as can be crowded in will be visited.

Later tours to Australia, South Africa and Europe hinge on the success of the first and how Louis stands the long and fast movements necessary to cover vast territory and get back to New York by March 15, which the champion wants to do in connection with income tax matters.

Louis no doubt will take time out to properly train for a fight in June or September, especially if Bruce Woodcock further makes good against Joe Baksi in England.

Louis' 10-year contract with Mike Jacobs expires in June, but there isn't likely to be any hitch about its renewal with the 20th Century Sporting Club.

It also is reasonably certain that if Louis does fight this year it will be his last. He will be 33 May 13. It's work for him now, and he can get all he will ever need by merely making bows.

McCarney has known intimately and done business with most of the heavyweight champions from John L. Sullivan to Louis, took the ill-fated Luther McCarthy, Bob Martin, Dempsey, Willard, Schmeling, Max Baer, Firpo and Godoy on tours.

Never yet has a McCarney-arranged jaunt proven other than a money-winner. This one will top them all. Even with Dempsey, McCarney was pleased to pick up \$3500 or \$5000 here or there. Promoters now start with \$50,000 in seeking Louis' services.

It's good to see Joe Louis stick to boxing, where he can do the business and himself the most good.

It's also good to see Billy McCarney back.

The Old Professor speaks of boxing intelligently and entertainingly, something that has been lacking for some time now.

Some Chinese jade carvers buy their jade in the state of Wyoming.

Gladstone Too Fast For Cooks Bombers

Faced by a fast Gladstone Lions team on a larger floor and minus the services of Williams, one of their regulars, the Cocks Bombers basketball team went down to a 47 to 44 defeat last night at the Gladstone high school gym.

The box score:

| Gladstone | FG | F | FM | PF |
|-----------|----|---|----|----|
| Young | 6 | 0 | 1 | 3 |
| Paine | 6 | 1 | 2 | 4 |

LOUIS TO TOUR LATIN AMERICA

Champion Can Clean Up On Exhibitions, Take On All Comers

BY HARRY GRAYSON
New York, (NEA)—Joe Louis got the idea when I took him to Honolulu for an appearance Nov. 11.

When Cleo Everett ran for four rounds, the champion volunteered to fight anyone in the house.

Promoter Leo Leavitt had a local honest ready and he was on the formidable side and totally unafraid. His two rounds with Louis saved the show, convinced the Brown Bomber that he could please crowds in exhibitions.

Despite two protracted strikes, Louis received a check for \$26,500, and while we were in the Islands he had an offer of \$100,000 for two appearances in Australia.

"How long has this been going on?" beamed Smoky Joe.

Louis was going to do four and five shots a day on a theatrical tour with what he calls a package unit, when all that easy money was to be had by simply sticking to his trade, at which millions of people wanted to see him.

He got a laugh out of a piece I did about his being stage-struck like all heavyweight champions before him, cancelled the theatrical trip, and John Roxborough sent for William Lee McCarney.

So, a Latin America tour booked by Bill McCarney, Louis departs Feb. 5, first stop, Mexico City, where he gets \$50,000 for boxing Arturo Godoy 10 rounds. The Chilean collects \$10,000. Not half bad for an exhibition.

Louis will box four, six or 10 rounds, depending on the guarantee. He will be the first heavyweight champion to appear in South America.

A sparring partner will be taken along, but Louis prefers to tackle all-comers. Opponents must be a headgear, which will be good for their health and protect Louis from butting the headgear will also make it clear that the appearance is an exhibition. There will be no decisions. Frequently rounds will be of two-minutes duration. As many cities as can be crowded in will be visited.

Later tours to Australia, South Africa and Europe hinge on the success of the first and how Louis stands the long and fast movements necessary to cover vast territory and get back to New York by March 15, which the champion wants to do in connection with income tax matters.

Louis no doubt will take time out to properly train for a fight in June or September, especially if Bruce Woodcock further makes good against Joe Baksi in England.

Louis' 10-year contract with Mike Jacobs expires in June, but there isn't likely to be any hitch about its renewal with the 20th Century Sporting Club.

It also is reasonably certain that if Louis does fight this year it will be his last. He will be 33 May 13. It's work for him now, and he can get all he will ever need by merely making bows.

McCarney has known intimately and done business with most of the heavyweight champions from John L. Sullivan to Louis, took the ill-fated Luther McCarthy, Bob Martin, Dempsey, Willard, Schmeling, Max Baer, Firpo and Godoy on tours.

STORMY TRAVEL AHEAD FOR U. M.

Seven Games Scheduled In February Against Big 9 Opponents

Ann Arbor, Mich., Jan. 30 (P)—The University of Michigan basketball team, holder of second place in the Western Conference, is heading into the "stormy weather" half of its schedule with seven games against Big Nine opponents in February.

After a two-week layoff for examinations, the second semester grind begins Friday night at Toledo, O., with Toledo University, a first non-conference opponent since Dec. 31.

Monday, Feb. 3, the Wolverines resume their struggle for conference honors with Indiana University at the Hoosiers' home court, and the following Saturday they will be back at Yost Field House to entertain Ohio State, last year's Big Nine champion.

On Feb. 10 the current conference leader, Wisconsin, will invade Ann Arbor and during the next nine days Michigan will meet Iowa, Purdue, Minnesota and Illinois. The latter two are home games.

Cowles, who has been carefully scouting his team's upcoming opponents during the recent layoff, declared the Hoosiers have about the best personnel he has seen since his debut this season as a Big Nine coach.

"We'll have to get back into a conditioning peak after exams," Cowles said, "and with all those games ahead we'll have to hold it at a high level because there won't be much time for rest or practice."

In the first half of the season the Wolverines won eight of their ten starts, losing only to Western Michigan and Minnesota, and proved one of the surprising outfits of the conference by twice defeating Northwestern and upsetting Purdue.

Cowles admits he hopes to maintain the same pace—or increase it, if possible—but doubts it can be done with such powerful opposition ahead.

Where Michigan will finish in the conference scramble is anybody's guess, but if the Wolverines manage to remain in first place with Wisconsin. In both seasons they won 10 games and lost 2.

Since the 1936-37 season, only one Wolverine team managed to wind up in the first division and that was the 1944-45 squad that ended in a fourth-place tie with Wisconsin.

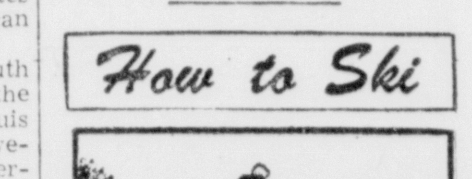

Michigan's last clear claim to a conference cage title was in the 1926-27 season, and two years later the Wolverines tied for first place with Wisconsin. In both seasons they won 10 games and lost 2.

Bullfight Delays Joe Louis Battle With Chile Godoy

Mexico City, Jan. 30 (P)—Heavyweight Champion Joe Louis' ten-round exhibition with Chilean Arturo Godoy was postponed today from Feb. 5 to Feb. 7.

The management of the 47,000-seat bull ring booked the Louis-Godoy event for Feb. 5 and also arranged a big bullfight for the same day which is the anniversary of Mexico's adoption of the 1917 constitution, a holiday here.

How to Ski

Single stem.

By NEA SERVICE
Only one ski is turned in to make the V, the other remaining in the usual running position in the single stem turn. Otherwise the principle is the same as that of the snowplow.

The single stem is the turn usually made by novices and intermediates.

While in regular running position shift the weight to one ski and push the upweighted one out to form a wide V angle. Now shift the weight to the stemmed ski, twisting the body around to face in the direction toward which you stemmed it.

Slide the newly unweighted ski parallel with the stemmed one and you will proceed down hill.

For a left turn memorize this sequence: Weight on left, stem right, swing weight to right, draw up left. Just the reverse for a right

SURVEY RENT CONTROL HERE

Many Have Not Yet Registered, Gregory Reports

A house to house survey will be conducted in Delta county shortly to ascertain the degree of compliance with the federal rent control regulations, Louis J. Gregory, area rent director, said yesterday on a routine visit to Escanaba. Gregory's office is located at Marquette.

"We know that there are a number of landlords who have not yet filed rental registration forms as required by the act," Gregory said. "Failure to register is a serious offense for which the penalty is a year in prison, or \$10,000 fine. Fraudulent registration is an equally serious offense which can be prosecuted under the criminal control act or under the criminal code for false representation to a federal agency."

Gregory declared that a large number of complaints have been received from tenants, accusing landlords of overcharging or of providing false information on the registration forms. The area rent director declared that such complaints will be investigated.

Tenants desiring to recover damages for rent overcharges must start action within 30 days from the last day on which the overcharges occurred.

The landlord's rental registration form is filled out in triplicate. One copy is sent to the landlord and another to the tenant. The third copy is retained in the files of the area rent director at Marquette.

Rents in Delta, Marquette, Gogebic, Houghton and Dickinson counties are frozen at the Jan. 1, 1946, level and in Chippewa county at the March 1, 1942, level.

Milwaukee C. of C. Nominates Budde

Milwaukee—John Budde, manager for Standard Oil Company of Indiana, has been nominated for the presidency of the Milwaukee Chamber of Commerce.

Budde currently is vice president. Paul Pratt, a Borden company official, has been nominated for first vice-president, with James Dagget, insurance executive second vice president, and Joseph Moser, bank official, treasurer.

New officers and directors will take their offices March 1. They will be presented at the association's annual dinner and meeting Feb. 10.

Peanuts get the name "goober" from their African name of "nguba."

Fishing Licenses May Be Increased

Madison, Wis.—Commercial license fees for Wisconsin fishermen may be boosted.

That's the possibility, since such a measure was introduced in the legislature at Madison.

The senate committee on agriculture and conservation brought in the measure at the request of the conservation department.

The bill would charge each fisherman 15-dollars plus one dollar for each one thousand feet of gill nets or set hooks. The present fee is only one dollar for each two-thousand feet.

For seines, the fee would go up to from five to 10-dollars. And for pound nets the proposed raise would be from two to 10 dollars, with an increase from 50 cents to two dollars for drop nets.

However, the bill would reduce the penalties for violations. Fine limits would range from 25 to 100-dollars instead of the present 75 to 500-dollars, with alternative jail sentences one to three months instead of three to nine.

She Left \$150,000 But Lived As Miser

Racine, Wis.—A story was unfolded in Racine, Wis., about a little old spinster who lived in a house without electricity or modern plumbing leaving an estate of \$150,000 when she died.

Public Administrator John Rowland said Mary Frances Mullin died last Saturday with 19-hundred dollars locked in a strong box in the closet, 18-thousand dollars in Racine banks and property deeds valued at 30-thousand dollars.

Corner James Heiberger said Miss Mullin was about 80 years old. She lived all alone on Racine's south side in a house that had no modern heating or plumbing facilities.

Authorities said Miss Mullin had no immediate relatives but she is known to have several cousins. Among them is Frank Parkinson of Racine.

"SALADA" Is Refreshing TEA

Rapid River

P. T. A. Meeting
Rapid River, Mich.—The regular meeting of the P. T. A. was held Monday evening Jan. 27.

A very interesting play, "New Shoes for Old," composed by pupils of the sixth grade and directed by Miss Ina Short was thoroughly enjoyed. The cast was as follows:

Feidler, Patsy Wilf.
Farmer, Gruffenuff, Jeanne Boyer.

Mrs. Gruffenuff, Delores Lind.
Miss Gossip, Lorraine Karasti.

Tommy Tumbleup, Ann Thomas.

Larry Lumpkins, Delores Lind.
Widow Pleasant, Dianne Sanford.

Sally Simper, Nancy Moser.

The business meeting consisted mainly of a discussion of ways and means of lessening the dangers of pedestrian crossing, especially school children at the intersection of main street Rapid

Britz, Collard Run In Menominee

Menominee—Two newcomers to the Menominee political scene today filed petitions for nomination as ward aldermen in the Feb. 17 primary election. They are George Britz of North Broadway, head of the Britz Motor Sales, who is seeking the Sixth ward aldermanic post, and Lawrence G. Collard of 1500 Dunlap avenue, a World War II veteran, who is seeking nomination as Fifth ward alderman.

Deadline for filing nominating petitions expires at 5 p. m. Saturday. Incumbent aldermen who have not yet filed are, John Jenkins, Jr., Third ward; Leonard J. Johnson, Fifth ward; Frank J. Heraly, Sixth ward and Edgar E. Erdman, Seventh ward. No candidate has filed for Sixth ward supervisor where a vacancy now exists.

"Rented the first day" said Smith

River and U. S. 2. It was decided to employ a Student Patrol before and after school and during the noon period as part of the work of the "Drivers Education" class under Miss Ranguette. It was further resolved that the P. T. A. would request the State Highway Department, to permit the use of sentinels (which have recently been purchased by the Lions club) at the center line of the highway at a designated distance from the intersection and also that only parallel parking be employed throughout the congested area.

The following people were nam-

ed to serve on committees for the next meeting which will be held on Monday evening Feb. 24, program committee, Mrs. Alice Sundling, Mrs. James Jay, and Mrs. Norman Slough. Lunch committee, Mrs. Harry Johnson, Mrs. Hugo Brannstrom, Mrs. Harry Person, Mrs. Herman Stenlund and Mrs. Andrew Wils.

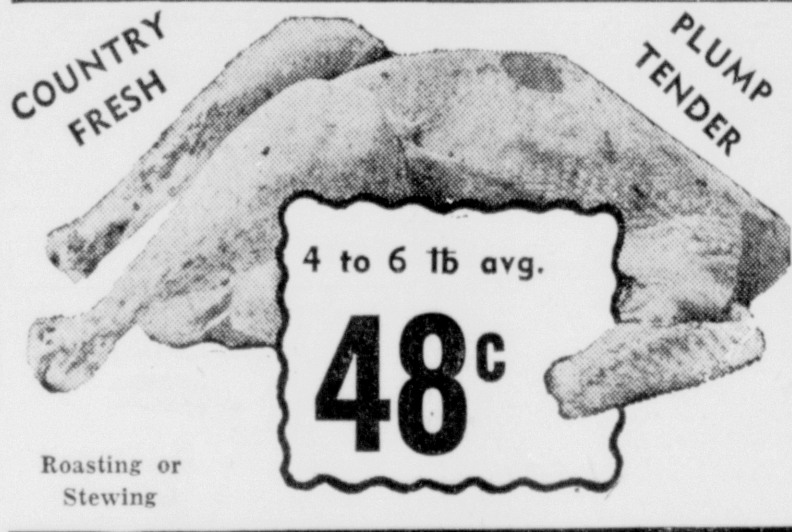

Royal Neighbors
The Royal Neighbors of Arbutus

Camp No. 1218 enjoyed their annual installation banquet at the River Way Inn on Tuesday evening Jan. 28. There were 13 members present. Following the dinner was the installation of officers

for the ensuing year at the high school music room. Mrs. Edna Young was installing officer and Mrs. Kathleen Scott ceremonial marshal. Officers installed were: Oracle, Dorothy Cavill; Vice Oracle, Ingeborg Johnson; Past Oracle, Kathleen Scott; Chancellor, Florence Hamilton; Recorder, Ruth Scott; Receiver, Marie Callahan; Marshall, Lena Pearson; Asst. Marshall, Jennie Karasti; Inner Sentinel, Eva Short; Outer Sentinel, Emma Groleau; Managers, Lena Pearson, Edna Young, Dorothy Cassidy; Flag Bearer, Helen Paul.
